## WHOLESALE PRICE LIST FOR MARKET GARDENERS AND FLORISTS 1939

HARRIS WONDER PEPPERS  
*See page 24*

**JOSEPH HARRIS COMPANY, INC.**  
**Moreton Farm** **Coldwater, N. Y.**

## DELIVERY OF SEEDS

All vegetable and flower seeds **in this price list** except **Peas, Beans, Sweet Corn and Spinach** will be sent prepaid by parcel post, express or freight **at our option**.

Peas, Beans, Sweet Corn and Spinach will not be sent prepaid unless they are included in any one order **to the value of \$20.00 or more**.

The above offer to pay transportation does not apply to Field and Grass seed, Potatoes, Onion Sets, Fertilizers, etc. Articles other than seeds listed in this catalogue are sent at **purchaser's expense** except where they are quoted "**Transportation paid.**"

**Seeds ordered sent *by express* will be so sent at the purchaser's expense.**

### About Ordering, Shipping, Etc.

Orders may be sent at any time and goods will be shipped at the time specified on the order.

Freight shipments are now handled by the railroads much more promptly than formerly and we advise having all heavy shipments (100 lbs. or more) sent in that way.

When ordering seeds shipped by freight or express please **be sure to give the name of your nearest freight railroad station or express office if it is different from your postoffice address.**

**25% of the value of the order must accompany all orders for goods shipped C. O. D. *Plants will not be sent C. O. D.***

### Terms and Discounts

Our regular terms are **cash with order**. When cash is sent with order we allow a discount of 5% on vegetable and flower seeds and plants, small fruits and accessories.

**Field and Grass Seeds are strictly net cash with order at prices quoted.**

To gardeners of established credit and those who furnish us with satisfactory references we allow the following **time payments *except on field and grass seeds, which are strictly cash with order.***

Bills for seeds, plants, etc., shipped after January 1st are due and payable **net** August 1st.

Bills for goods shipped after August 1st are due **net** December 1st.

### Conditions of Sale

No **seeds** are sold by us that we do not **know** are of good vitality and will grow under normal conditions. They are all tested and the per cent that germinates is marked on the package or label.

We assume responsibility of the seeds, plants and bulbs we sell reaching the purchaser in good condition. However, in common with all responsible seedsmen, all our seeds, plants and bulbs are sold on the distinct understanding and with the agreement by the purchaser that we will not be responsible for any loss or damage that may accrue by reason of the failure of the seeds, plants or bulbs to grow or to be of the variety or quality offered. We will not accept or fill orders under any other conditions.

Coldwater, N. Y., Dec. 1, 1938

JOSEPH HARRIS COMPANY, INC.

### Our General Retail Catalogue

Our general retail catalogue is issued in January. It contains more complete descriptions of the varieties listed here. Also a full line of garden accessories, fertilizers, insecticides, etc.

Your copy will be mailed to you as soon as issued. If you do not receive it, let us know. We will gladly send copies to your friends on request.

# HARRIS SEEDS for 1939

## WHOLESALE PRICE LIST

For MARKET GARDENERS and FLORISTS

Harris' Detroit Dark Red Beets

Mr. Irwin S. Wickham of Stanley, N. Y. harvested 184 tons of fine beets from this 7½ acre field this fall.

Mr. Wickham writes: Nov. 29, 1938

"On account of their fine color, we sold all our beets to the canner when many other crops in the neighborhood were being turned under."

We are Growers, not mere dealers. We grow seed of our special varieties to supply the needs of our customers, on our own and nearby farms here in Monroe County.

Growing seed as we do here in the North, we have developed early, highly productive varieties of peppers, tomatoes, sweet corn, melons, squash, etc., which have proved much more profitable for Market Gardeners, than these same varieties grown farther south.

*Do not accept substitutes!* We do not sell to Dealers, and you can obtain our special stocks only from us.

This year has been a very favorable one for the seed crops on our farms, and our beets, beans, hybrid and open polinated corn, melons, squash, parsnips, peppers, tomatoes, etc. have produced fine strong seed of high germination.

### ORDER BY MAIL

*It is so easy* and you can be assured that when you send us your order you do not have to wait for your seeds. During the shipping season, orders are shipped out promptly on arrival. Fast mail, express and freight service will get them to you quickly and in good order.

According to Our Tests

**96 per cent**  
of this seed germinates

### EVERY LOT OF SEED IS TESTED

A LABEL similar to this is put on every lot of Harris' Seeds that is sold. The figures of course vary.

PLEASE NOTE: *We do not sell to Dealers.* The prices quoted in this list apply only to orders from market gardeners, florists and institutions who use seed in considerable quantities. *All prices here quoted are subject to change without notice and to our stocks being unsold.*

For prices of seed in quantities less than listed here, please refer to our general catalogue. *We will be pleased to quote special prices to anyone buying larger quantities of any one variety than we list here. Please write.*

*Spargel (Ger.)***ASPARAGUS***Sparagio (It.)***Mary Washington—Large, early and "rust resistant"**

This is the best of the "rust resistant" varieties and was originated by the United States Department of Agriculture at Washington. Our seed is the true strain and will produce the finest large stalks. Oz. 15c;  $\frac{1}{4}$  lb. 40c; 1 lb. \$1.25; 10 lbs. \$11.50.

*Artischoke (Ger.)***ARTICHOKE***Carciofo (It.)*

**LARGE GREEN GLOBE.** The Standard Variety. Produces the flower buds which are used for food the second year after sowing the seed. The plants are not hardy and require protection in winter north of Virginia. Oz. 50c;  $\frac{1}{4}$  lb. \$1.50; lb. \$5.00.

*Salat-Ruebe (Ger.)***BEETS***Barbabetole (It.)*

$\frac{1}{4}$  lb. of seed will sow about 250 ft. of row. Sow 10 lbs. of seed to the acre for rows 14 in. apart; 6 to 8 lbs. per acre for rows 18 in. apart.

### Harris' Special Crosby's Egyptian

**Finest For Early Bunching**

If you want a variety that will produce smooth, even, dark red beets, *early*, grow this kind. Their fine tap roots and uniform appearance always make them command better prices than ordinary beets.

We are proud of our stock of this grand beet and can confidently say that it is the finest of the type grown. Our stock is backed by over thirty years of careful breeding here on our own farm and as we have said many times, "Every one a model for shape and color." See prices below.

### Harris' Special Detroit Dark Red Famous For Fine Color

You will find this the best beet for late summer and fall trade. No better strain can be obtained. Through many years of careful breeding and selection we have produced a beet that is not only of fine uniform shape but has a superb deep red color which is without equal. Particular growers tell us there is no beet which proves so satisfactory as Harris' Special Detroit.

Our seed crops of this beet this year have produced fine seed of high germination. See prices below.

**Harris' Special Crosby's Egyptian Beets**  
*Grow this for early market!*

"We are sending you our entire order for seeds this year. We have found your seeds more reliable than any we have tried."  
A. J. Michalke & Sons, Middletown, Conn. Feb. 14, 1938

	$\frac{1}{4}$ lb.	1 lb.	10 lb.	100 lb.
<b>CROSBY'S EGYPTIAN. Harris' Special Strain.</b> See above.....	\$ .30	\$ .90	\$ 8.50	\$ 75.00
<b>CROSBY'S EGYPTIAN. Bright Red Strain</b> .....	.25	.70	6.50	60.00
Color lighter red than Harris' Strain. Popular in some markets.				
<b>DETROIT DARK RED. Harris' Special Strain.</b> See above.....	.30	.90	8.50	75.00
<b>Early Blood Turnip</b> .....	.25	.70	6.50	60.00
A good old variety. Large, somewhat flattened beets. An early cropper.				
<b>EARLY WONDER. A Superior Strain for Bunching</b> .....	.30	.90	8.50	75.00
Quite similar to our special strain of Crosby's Egyptian. Early and of good deep red color. Our strain of this variety is exceptionally fine.				
<b>LONG SEASON. Called "Winter Keeper" and "New Century"</b> ..	.45	1.40	13.50	125.00
A very late variety of extra fine quality. Description in Retail Catalogue.				
<b>LONG SMOOTH BLOOD RED. (True Strain)</b> .....	.25	.75	7.00	65.00
8 to 10 inches long and very dark red. Grows half out of the ground.				
<b>Beets for Greens. (Green Top)</b> .....	.15	.45	4.00	35.00
Quick growing large tops, for greens.				

**MANGELS AND SUGAR BEETS—For Stock**

*Six to eight pounds of seed will sow an acre.*

See our general catalogue for complete descriptions.

**Bohnen (Ger.) BEANS Fagioli (It.)**

*One pound of beans will plant 150 ft. of row. 60 to 75 lbs. per acre.*

Beans in this price list are quoted f. o. b. Coldwater, N. Y. Purchaser pays transportation on beans, except as follows:

\*If your order for vegetable seed including beans amounts to \$20.00 or more we prepay freight charges. (See also inside front cover.)

**HARRIS' BEANS**

Our first consideration is to supply our customers with the truest, highest yielding strains of beans obtainable. Our beans are grown from clean, selected, prolific stocks. We have made our prices as low as we possibly can for our high quality stock.

**BOUNTIFUL**

*The Most Profitable Green Bean to Grow*

There is no better stock of Bountiful Beans obtainable than our special Northern Grown seed. It is grown from carefully selected high yielding foundation stocks in *disease free fields*. The pods are handsome, light green, straight and flat and entirely stringless. See price below.

**TENDERGREEN**

*The Best Round Pod Green Bean*

Market Gardeners who want an early round podded green bean will do well to grow Harris' Strain of Tendergreen.

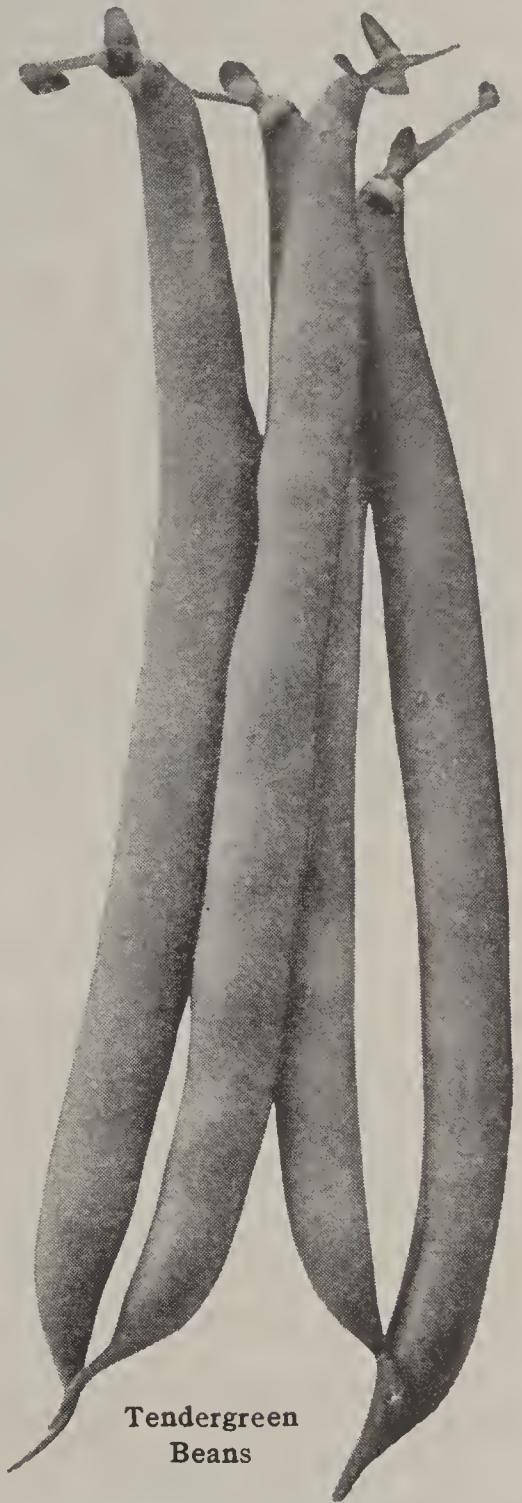

Our stock of Tendergreen Beans has become so popular with our customers during the past few years, that now we sell nearly three times as much of it as we do of all other round podded green varieties combined.

The pods are handsome, straight, entirely stringless and produced in great abundance on sturdy upright vines. See prices below.

**Dwarf Green-Podded Beans**

*25 lbs. or more of one variety of beans will be supplied at 100 lb. price. A bushel of beans weighs 60 lbs.*

	NOT PREPAID* (See above)

<i>One of the most prolific and earliest green beans. The pods are long, straight, nearly round when young and very attractive. One of the best market beans and a very profitable variety to grow.</i>					
<b>TENDERGREEN. Early and Prolific. Round Pod. See above</b> . . . . .	.25	1.45	2.55	14.00	65.00

Tendergreen Beans

*BEANS continued on next page.*

French Horticultural Beans  
Typical plants in one of our seed fields

## French Horticultural Harris' Special Stock

No finer stock of this variety can be obtained. This is not boasting but a plain fact that has been abundantly demonstrated. Particular growers find it superior to any stock sold, and fully equal to the finest jealously guarded "private stocks."

Ours is a pure line strain that has been increased by us from a single plant which we selected in 1928 and is outstanding for high yield, uniformly long pods and superb coloring. See prices on page 3.

### Sure Crop Wax The Best Flat Wax Bean

If your trade demands a flat wax or yellow bean you will do well to grow our strain of Sure Crop. It is fully equal to any and much superior to most stocks offered.

The vigorous healthy upright growth of the plants, combined with enormous yields of long straight pods make this one of the most popular and profitable wax beans to grow. See prices below.

### Pencil Pod Black Wax The Best Round Podded Wax Bean

This is the bean to grow if your trade wants a round pod wax variety. Our strain is grown from carefully bred stock seed, which has been especially selected for vigor, high yield and true type. Growers are highly pleased with this stock. See prices below.

## Dwarf Wax Varieties

	NOT PREPAID*				
	1 lb.	7½ lb.	15 lb.	100 lb.	500 lb.
PENCIL POD BLACK WAX. Best Round Pod Wax. See above.....	\$ .25	\$1.45	\$2.55	\$14.00	\$65.00
ROUND POD KIDNEY WAX or Brittle Wax..... Pods 5 to 6 in. long, straight, round, clear yellow, stringless and medium early.	.30	1.65	3.00	17.00	....
STRINGLESS DAVIS WHITE WAX (New). White Seeded Long straight, entirely stringless, flat yellow pods borne in great abundance of sturdy upright plants. Matures with Sure Crop.	.30	1.50	2.70	15.00	70.00
SURE CROP WAX. The Best Flat Wax Bean. See above...	.25	1.45	2.55	14.00	65.00
UNRIVALLED WAX. For Early Market..... A heavy yielder of attractive narrow, flat, clear yellow pods of refined appearance. A few days earlier than Sure Crop.	.25	1.45	2.55	14.00	65.00
WEBBER WAX or "Wonder Wax." The Earliest Wax The pods are long, straight, flat stringless and quite free from rust. A heavy bearer. Also called "Cracker Jack."	.25	1.45	2.55	14.00	65.00

## LIMA BEANS

A pound of Dwarf Lima seed will plant 150 ft. of row. About 60 lbs. per acre.

### Fordhook Bush Lima—The Most Profitable Lima Bean to Grow

We are pleased to offer a very superior stock of this popular market variety. The vines are very prolific and the pods uniformly large with choice thick green beans.

With this sure bearing stock, Lima Beans are a profitable crop to grow, as the beans bring uniformly good prices. See price below.

	NOT PREPAID*				
	1 lb.	7½ lb.	15 lb.	100 lb.	500 lb.
Burpee's IMPROVED Bush Lima..... Larger pods and thicker beans than the old variety with deeper green color.	\$ .30	\$1.65	\$3.00	\$17.00	\$80.00
FORDHOOK BUSH LIMA. Best for Market. See above...	.30	1.75	3.15	18.00	85.00
Henderson's Bush Lima..... Small flat pods and beans, early and very prolific.	.30	1.50	2.70	15.00	70.00
IDEAL or Mammoth Podded POLE LIMA..... Pods often 8 in. long, early and prolific. This is the best large podded Pole Lima. A pound of seed will plant 100 ft. of row or about 80 hills.	.30	1.75	3.15	18.00	85.00

\*We prepay freight charges if your order for vegetable seeds including beans amounts to \$20.00 or more.

## POLE BEANS

*A pound of Pole Bean seed will plant 120 ft. of row or about 100 hills.*

### King Horticultural—Harris' Special Large Seeded Strain

There is no comparison between this strain and ordinary King Horticultural beans. The seed is exceptionally large.

This variety is superior to French Horticultural both for yield and disease resistance. The pods are about an inch shorter and slightly wider than French Horticultural, straight, very attractive, heavily splashed with bright scarlet at the shell stage and entirely stringless.

When put on good, well drained land, they can be grown just as well without supports. The pods grow just as long and straight and they can be picked as easily as the dwarf kinds. See price below.

	NOT PREPAID* (See page 4)			
	1 lb.	7½ lb.	15 lb.	100 lb.
<b>Golden Cluster Wax</b> ..... Long, broad, deep yellow pods of finest quality; beans white.	\$ .30	\$1.90	\$3.45	\$20.00
<b>Kentucky Wonder. Also called "Old Homestead"</b> ..... Long, slender, green pods of fine quality. Early and very prolific.	.30	1.50	2.70	15.00
<b>KENTUCKY WONDER. (White Seed) Heavy Yielding</b> ..... This is the most uniform and prolific strain of Kentucky Wonder. Long slender pods. Has the added advantage of being white seeded.	.30	1.90	3.45	20.00
<b>Kentucky Wonder Wax</b> ..... Long, flat, yellow pods of fine quality. One of the best wax pole beans.	.30	1.50	2.70	15.00
<b>KING HORTICULTURAL. Special Large Seeded Strain. See above</b>	.30	1.90	3.45	20.00
<b>SCOTIA. Fine for Roadside Markets</b> ..... Extremely prolific, with long round slender green pods of the finest quality. Has proved very profitable as a high quality bean for discriminating trade.	.30	1.75	3.15	18.00

## FIELD BEANS

*Sow about 60 lbs. of Field Beans per acre.*

	NOT PREPAID* (See page 4)			
	1 lb.	7½ lb.	15 lb.	100 lb.
<b>BOSTON MARROW or White Marrowfat. Perry Strain</b> .....	\$ .25	\$1.20	\$2.10	\$10.00
<b>RED KIDNEY</b> .....	.25	1.15	2.05	9.00
<b>Robust Pea Beans. Mosaic Resistant</b> .....	.25	1.10	1.60	7.00
<b>White Kidney</b> .....	.25	1.45	2.55	14.00

## BROCCOLI—Italian Green Sprouting (Calabrese)

You can depend on this stock to produce big compact center heads and an abundance of large side shoots. It is the true "Calabrese" strain and is the best of any stocks which can be obtained.

Oz. 50c; ¼ lb. \$1.50; 1 lb. \$5.00.

*Rosenkohl (Ger.)*

## BRUSSELS SPROUTS

*Cavolo di Brussels (It.)*

*1 oz. of seed will produce about 3000 plants.*

Brussels Sprouts are not difficult to grow and as there is always a market for good sprouts, the thing to do is to grow the right strain. We offer below the finest stocks grown.

### Fancy Basket (New)—Early and Prolific

This is a new variety of the tall type that has produced excellent results and no doubt will become very popular.

The plants are very uniform with stalks fully two feet tall, closely covered with large firm sprouts and are earlier than any other variety we have seen. We urge you to try this fine new kind. See prices below.

<b>FANCY BASKET. (New) See above</b>	Oz.	¼ lb.	lb.
..... ¼ oz. 30c	\$ .85	\$2.85	\$10.00
<b>LONG ISLAND IMPROVED. (Private Stock)</b>	¼ oz. 35c	1.00	3.40
This is the most uniform and heaviest producing stock of this popular variety. The plants are dwarf and literally covered with large firm sprouts of the finest type. We cannot recommend this stock too highly.			12.00
<b>Long Island Improved</b> .....	.45	1.20	4.00
The same as we have sold heretofore and has proved so very satisfactory to our customers. It is a dependable yielder producing an abundance of large firm sprouts.			

Long Island Improved. Private Stock.

*Kraut (Ger.)***CABBAGE***Cavolo capucci (It.)*

One ounce of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames. It requires 4 to 6 oz. of seed to produce plants for an acre of ground.

**Hot Water Treated Seed**

We can supply *hot water treated seed* of the varieties of cabbage we list in this catalogue at no advance in cost. Hot water treated seed is usually a little lower in germination. We will supply *untreated seed* on all orders unless treated seed is specifically requested.

### Golden Acre The Earliest Cabbage

This fine cabbage has proved to be one of the most profitable kinds to grow. Our seed of this popular variety is the true originator's strain which we have sold for years and is vastly superior to most stocks sold even at higher prices. See price below.

### Golden Acre Special

**Best Strain of Golden Acre Obtainable**

We strongly recommend this strain to the grower who wants absolutely the best and is willing to pay the little extra cost for seed. It actually amounts to only about 75c per acre. See price below.

### Green Acre (New)

This new cabbage is remarkable for the inherent green color all through the heads giving them a "freshly cut" appearance, even after much shipping, handling and trimming.

The heads resemble Golden Acre, but are larger, greener and mature a few days later. The plant is short stem and compact so that it can be planted close. This new cabbage has proved a most profitable kind to grow. Try some this year. See prices below.

Golden Acre Cabbage

### Yellows Resistant Cabbage

These varieties are the only kinds to grow where ground is badly infected with "yellows." In many sections where there is slight yellows infection the ordinary varieties can be grown, but the yellows resistant kinds are more profitable as they do much better and produce larger crops.

We sell the following "yellows" resistant strains. These are the best stocks obtainable.

**Yellows Resistant Golden Acre**

**Yellows Resistant Copenhagen**

**Marion Market (Copenhagen type)**

**Wisconsin Hollander (Ballhead)**

**Bugner Yellows Resistant (Danish type)**

If you have "yellows" on your farm, be sure to grow these varieties!

### Early Varieties

	Oz.	¼ lb.	lb.
<b>COPENHAGEN MARKET. True Large Headed Stock.</b> .....	\$ .30	\$ .90	\$3.00
Our strain is larger and more uniform than usual strains of this variety. Heads round, hard and have few outside leaves. Larger and about 10 days later than Golden Acre.			
<b>COPENHAGEN MARKET. "Yellows" Resistant. The Best Stock.</b> .....	.50	1.50	5.00
So much better than those which have heretofore been offered that there is no comparison. The heads are very uniform for shape and size and about the size of our strain of regular Copenhagen Market but mature a little later.			
<b>Early Jersey Wakefield. Early Pointed Heads.</b> .....	.30	.90	3.00
Our strain is particularly fine, the heads being very uniform and early.			
<b>ENKHUIZEN GLORY.</b> .....	.25	.70	2.25
A very large, medium early strain. Heads as large as the late kinds and mature much earlier. Has proved to be a most profitable variety for market and kraut.			
<b>GOLDEN ACRE. The Earliest Cabbage. See above.</b> .....	.35	1.10	3.50
<b>GOLDEN ACRE. Special Strain. See above.</b> .....	.60	1.90	6.50
<b>GOLDEN ACRE. "Yellows" Resistant.</b> .....	.50	1.50	5.00
True to type and earliness and in addition will produce good crops on diseased soil where regular Golden Acre cannot do well.			
<b>LARGE LATE COPENHAGEN. Best for Kraut.</b> .....	.30	.90	3.00
Enormous yielder. Two weeks later than Copenhagen Market. Can be cut for market or kraut. Remains hard without splitting a longer time than any other kind we have seen. Grows 10-12 in. in diameter.			
<b>MARION MARKET. "Yellows" Resistant. Copenhagen Type</b> .....	.45	1.20	4.00
We have a very un form true stock of this variety.			
<b>GREEN ACRE. See above.</b> .....	.60	1.75	6.00
<b>RED ACRE. New Early Round Red. Sure Heading</b> .....	.50	1.50	5.00
The earliest red cabbage, only a little later than Copenhagen Market. Resembles Golden Acre in shape and size. Very uniform and solid and deep red color. <i>Every head is just alike.</i> Plants are compact, and even under adverse conditions practically every plant makes a good head.			

# HARRIS' BALLHEAD

## *The Outstanding Danish Cabbage*

We have yet to see a stock of Danish Cabbage which is superior to Harris' Ballhead.

The heads are very uniform, extremely solid and just the right size for market and shipping. They average about six lbs. in weight. The vigor and great uniformity of this strain year in and year out make it the most consistent heavy yielder of fine cabbage and in addition it has proved to be a very superior keeper coming out of storage in excellent shape.

The heads are greener than most Danish cabbage with a slight purple tinge. Because of the attractive appearance, uniform size and firmness, this cabbage commands the best prices and often sells readily when the market is slow. If you want good Danish cabbage, grow Harris' Ballhead. See prices below.

Joe Harris in one of our fields of Harris' Ballhead Cabbage

### Late or Main Crop Varieties

	Oz.	¼ lb.	lb.
<b>ALL SEASONS. The Best "Domestic" cabbage</b> .....	\$ .25	\$ .70	\$2.25
We recommend this strain for growers who want the best in yield and type of the large flat "domestic" cabbages. This cabbage is popular for "kraut" in many sections.			
<b>BUGNER. Yellows Resistant</b> .....	.50	1.35	4.50
Because it is yellows resistant, this old variety is becoming more in demand. It is later than Danish Ballhead, and has larger and more flattened heads. A very heavy producer.			
<b>DANISH BALLHEAD. Intermediate. "Fine Keeper"</b> .....	.30	.90	3.00
Heads are deeper and not as flattened as the short stemmed. The color is deeper green and they keep very well in storage. A profitable type to raise.			
<b>DANISH BALLHEAD. Short Stem. Heavy yielding strain</b> .....	.30	.85	2.75
This is a very fine strain producing large yields of uniform heads which are medium large, solid and of good color. An excellent variety for storage.			
<b>HARRIS BALLHEAD. See above</b> .....	.45	1.20	4.00
<b>MIDSEASON MARKET</b> .....	.30	.90	3.00
One of the most uniform and heaviest yielding of the early midseason varieties. Heads are large, almost perfectly round and solid. Excellent for market kraut or shipping.			
<b>PENN STATE Ballhead. True Stock</b> .....	.30	.90	3.00
Short stemmed with very solid heads, which are somewhat flatter than most Danish types. This cabbage is noted for its large yield.			
<b>Premium Flat Dutch</b> .....	.25	.70	2.25
<b>SAVOY. Perfection Drumhead. Market Gardener's Strain</b> ..	.30	.90	3.00
Heads are large, of fine quality and quite firm. The leaves are deep green, and very much curled. Matures late and keeps all winter. This is an extra fine strain for market and roadside stand.			
<b>WISCONSIN HOLLANDER. "Yellows" Resistant</b> .....	.45	1.20	4.00
We have a true stock of this cabbage which will produce good crops on ground so diseased with "yellows" that ordinary cabbage will not survive. Danish type.			
<b>MAMMOTH ROCK RED. Sure Heading Strain</b> .....	.30	.90	3.00
The largest red cabbage. The heads are hard, medium round and deep red. This is the best late red kind for market or shipping.			

### CHINESE CABBAGE

*Sow the seed in July or August. The crop matures in 8 to 10 weeks.*

	Oz.	¼ lb.	lb.
<b>CHIHLI. Much the Best Variety</b> .....	\$ .25	\$ .75	\$2.50
This is the most popular variety and best for market and roadside stands. It has almost entirely replaced all other kinds. The heads are very attractive, often 18 in. long, uniform in shape and size. This variety is by far the best to grow. A profitable crop on muck.			
<b>Wong Bok</b> .....	.25	.70	2.25
Short compact heads of fine quality.			

Chihli

**Blumenkohl (Ger.)****CAULIFLOWER****Cavolflore (It.)***One oz. of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames.***Snowball-Perfected Strain***Mr. Chester Utter of Stamford, N. Y. is proud of his fine crop from our seed.***Harris' Cauliflower Seed**

For many years we have made it a point to supply our customers with the best possible cauliflower seed and at a reasonable price. We have made our prices as low as is consistent with good quality. You need pay no more to get the best.

**Snowball Cauliflower  
Perfected Strain***"No better seed can be bought  
at any price"*

From the reports of our customers and results on our own farm, we are firmly convinced that this is literally true. There is no use paying more than we charge for Snowball Cauliflower, but don't risk the success of your crop by using cheap seed.

The heads are unusually deep and heavy, of uniformly good size, beautifully white with a tight attractive curd. See price below.

**Super Snowball Cauliflower  
True Originator's Strain**

Cauliflower growers recognize the value of this fine variety and our customers have found that altho there are many strains now offered under a large number of names, our stock of the true originator's strain of Super Snowball has never been surpassed. We have sold this

same strain grown by the originator continuously since its introduction in 1929.

We strongly advise our customers not to take chances with their Super Snowball but to use this original strain which has proven so extremely satisfactory. See price below.

**Snowdrift****Also called White Mountain and Improved Holland Erfurt**

A little earlier than Snowball, producing large compact heads which are very white. This variety is popular in many sections and is sold under a variety of names. Ours is an extremely fine true stock. See price below.

**Early Purple Head—New Italian Purple**

This is without question the finest strain of Italian Purple Cauliflower. The plants are compact and produce tight, uniform, good size heads, fully two weeks earlier than other purple stocks. This year we started to cut October 7th, and finished November 4th.

This stock will produce a larger percentage of true purple heads than any other stock. This year 100% of the plants produced true heads.

	1/4 oz.	Oz.	1/4 lb.	lb.
<b>Danish Giant Snowball or "Dry Weather"</b> .....	\$ .50	\$1.60	\$5.75	\$20.00
<i>Ten days or two weeks later than Snowball and more vigorous. Stands drought.</i>				
<b>DANISH GLORY (NEW)</b> .....	.75	2.25	8.00	30.00

Carroten (Ger.)

# CARROTS

Carota (It.)

An ounce will sow about 300 feet of row. It requires 2 to 4 lbs. of seed for an acre, depending on how far the rows are apart.

## Imperator—Outstanding for Bunching

This is the fine bunch carrot which is shipped to Eastern markets from California. It grows just as well here and has become very popular for high class bunching trade. The carrots are often eight inches long, smooth, somewhat tapering and deep orange in color. The tops are just right for bunching. We offer the true stock.

See prices below.

## Supreme Half-Long

“A Red Cored Danvers”

### An Excellent New Sort for Market

This new carrot is really a more slender, refined, coreless strain of the Danvers type. The roots are good size, very attractive; of deep orange color and quite smooth. The interior is solid deep orange, having a small “red” core. The tops are not too large, making this a fine carrot both for bunching and busheling. See prices below.

## Morse’s Bunching

This new carrot has become very popular in many sections for bunching, because of its very fine color, smoothness and uniform appearance. The carrots are eight inches long, smooth, slightly tapering with a stump root when fully mature and with good tops for tying. They are deep orange, clear to the tip, entirely coreless and of fine quality. See prices below.

Imperator Carrots  
Make bright, attractive bunches

## Nantes—Coreless

This is the *coreless* variety that is used so much for early bunching as well as a topped carrot on many markets. The carrots are very attractive, six to seven inches long, smooth, the same size the entire length and stump rooted. They are *entirely coreless* and of finest quality. See prices below.

**Note: 25 lbs. or more of any one variety will be supplied at the 100 pound rate.**

	¼ lb.	lb.	10 lb.	100 lb.
CHANTENAY. Special Strain.....	\$ .30	\$1.00	\$ 9.00	\$ 75.00
Grows about an inch longer than most Red Cored and most strains of Chantenay. It has proved the best stock of this variety we know.				
CHANTENAY. Red Cored.....	.30	1.00	9.00	75.00
Our customers have been well pleased with this stock. The fine quality of this carrot has made it rapidly replace the old style Chantenay both for market and canning. Our strain has been constantly improved and will be found to be practically 100% red cored.				
DANVERS HALF LONG. A Heavy Cropper.....	.30	1.00	9.00	75.00
We have a pure heavy yielding stock of this popular variety.				
HUTCHINSON. True New England Type.....	.60	2.00	19.00	175.00
Produces large roots 9 to 10 in. long, nearly the same size the whole length and stump-rooted. Color light orange. This carrot yields large crops and is used extensively for busheling in the New England area. We have a very superior and dependable stock.				
IMPERATOR. Fine for Bunching. See above.....	.45	1.40	13.00	115.00
Long Orange.....	.30	.90	8.00	70.00
Roots a foot long, yields large crops.				
Mastodon or White Vosges.....	.25	.80	7.00	60.00
Large, white carrot for stock feeding. Immense yielder. 8 to 10 in. long.				
MORSE'S BUNCHING. (New) See above.....	.45	1.40	13.00	115.00
NANTES. Coreless. See above.....	.40	1.35	12.50	110.00
PERFECTION. A Longer “Coreless”.....	.55	1.75	16.50	145.00
This carrot is similar to “Coreless” described above, but is longer, being 7 to 8 inches long. They are practically the same size the whole length and <i>coreless</i> . Fine for fall bunching or topped carrots in fall and early winter.				
SUPREME HALF LONG. (New) See above.....	.40	1.30	11.50	100.00
TENDERSWEET. The Sweetest Carrot.....	.50	1.65	15.00	.....
This carrot is being grown more and more for market. The roots are large, smooth and tapering, of striking deep reddish orange color, good bunching character and superb quality.				

Bleich-Sellerie (Ger.)

# CELERY

Sedano (It.)

An ounce of seed will produce about 8000 plants. It requires 20,000 plants to the acre.

Harris' Golden Plume Celery  
Grown by Mr. A. DeClerck (left) of Macedon, N. Y.

## Golden Plume or Wonderful Original Strain

This is our original type of Golden Plume which has proved so satisfactory to our customers. The stalks are *very large* with remarkably *heavy hearts* and with *thick solid stems*. Constant improvement has made our stock much better than it was when first introduced. There is not one green stalk in a thousand and no soft ones.

Many of the best celery growers in the country get their seed of Golden Plume from us. They have found that by using our stock it is not necessary to pay a fancy price in order to get the best results. See prices below.

## Supreme Golden (NEW)

An Improved Golden Self Blanching  
Resistant to "Yellows"

This new strain is definitely taller than our regular Golden Self Blanching and matures a few days earlier. It is however later than Golden Plume.

The plants grow very erect and are unusually compact and uniform. The stems are long to the first joint, broad and rather thick. One of the best features of this new variety is that the inner stems are long and the hearts exceptionally good. The whole plant is very compact, making a very solid crate when packed. The stems blanch to a clear creamy white. We have seen perfect stands of this variety in fields badly infected with "Yellows." See prices below.

Yellow or "Self-Blanching" Varieties	Oz.	¼ lb.	lb.
<b>GOLDEN PASCAL (New).</b> Of superb quality . . . . . ¼ oz. 40c	\$1.25	\$4.25	\$15.00
A new tall growing celery of extremely fine quality. The stalks are thick, rounded and long, creamy yellow in color and very brittle and tender.			
<b>GOLDEN PLUME or WONDERFUL.</b> Original Strain. See above . . . . .	.75	2.35	8.00
<b>GOLDEN PLUME.</b> New Tall Strain . . . . .	.75	2.35	8.00
This new strain has stems which are longer to the first joint than the old strain. It is definitely a taller plant but not quite as large in diameter. Many growers have been well pleased with this new strain this year. It is better suited for growing on upland than on muck.			
<b>GOLDEN SELF-BLANCHING.</b> "New" Strain. Tall . . . . .	.75	2.35	8.00
Grows very rapidly and is strong and healthy, resisting blight well. Some growers think it is too tall for late crop and storage, but prefer it for the early crop.			
<b>GOLDEN SELF-BLANCHING.</b> "Old" Strain. . . . .	.75	2.35	8.00
This old standard variety continues to be a very profitable strain to grow especially for late crops. The stalks are large, just tall enough to nicely fill a standard celery crate, and have large heavy hearts.			
<b>SUPREME GOLDEN (NEW).</b> "Yellows" Resistant. See above . . ¼ oz. 45c	1.35	4.55	16.00

## Salt Lake or Utah—The Best Green Celery

Salt Lake is the best celery to use where a superior green kind is wanted for fall market and storage. Growers who have used our strain for nearly ten years are very enthusiastic in its praise.

The plant grows to a good height with a well developed and heavy heart. The individual stalks are *very thick*, crisp, of high quality and blanch more quickly than other green varieties. Year after year, we have seen fields of our Salt Lake Celery with literally thousands of uniform large compact plants and not a single soft stalk. See prices below.

Green Varieties	Oz.	¼ lb.	lb.
<b>EASY BLANCHING "Newark Market" or Sanford Superb.</b> . . . . .	\$ .60	\$1.75	\$6.00
It has the same dwarf, compact habit of growth as Golden Self-Blanching, blanches quickly, and is of fine quality. Leaves are green and the stalks white when blanched. Altho not expensive, this is a very superior stock. You can depend on it to produce the finest early green celery.			
<b>GIANT PASCAL.</b> Special Strain . . . . .	.50	1.50	5.00
This strain of Giant Pascal is largely used in New England and is considered one of the very best for late winter market. The stalks are large, solid and blanch pure white. Growers find our strain equal to those selling for several times the price we charge.			
<b>SALT LAKE or UTAH.</b> The Best Green Celery. See above . . . . .	.75	2.35	8.00

**CELERIAC—Turnip-Rooted or “Knob” Celery**

	Oz.	¼ lb.	lb.
<b>LARGE SMOOTH PRAGUE.</b> Best for Market.....	\$ .25	\$ .75	\$2.50
<i>This is the standard market garden variety.</i>			
<b>DELICACY.</b> Grow for fine quality.....	.30	.90	3.00
<i>This variety produces medium size bulbs of superior quality.</i>			

*Welschkorn (Ger.)*

**SWEET CORN**

*Mais (It.)*

*One pound of seed will plant 350 to 400 hills; 10 to 12 lbs. will plant an acre. A bushel weighs 48 lbs.*

At the prices here quoted, sweet corn is not prepaid. Purchaser pays transportation on sweet corn except as follows: If your order for vegetable seeds, including corn, amounts to \$20.00 or more we will prepay the FREIGHT charges. Write for special prices on larger lots than quoted here.

**Harris' Northern Grown Sweet Corn**

For many years we have made a specialty of growing sweet corn seed of the highest quality here in the North and due to our careful scientific selection and breeding to improve the earliness, yield and quality, the demand for Harris' Sweet Corn has grown so that we are now large producers of the best market varieties.

**Hybrid Sweet Corn**

The large number of hybrids now offered make it difficult for the grower to choose the best. Good hybrids can be produced only from carefully selected pure line parent stocks and in the growing of hybrid seed corn constant detasseling of the seed parent is absolutely necessary. Many seed fields of hybrid corn are detasseled only three or four times but we find that it is necessary to go carefully through each of our fields *twelve to fifteen* times. This is expensive work but is the only way to grow first class hybrid.

Hybrid sweet corn cannot be saved for seed the next year as it break down.

Northern Cross. Note the large, uniform ears

**Northern Cross**

**An Early and Tremendous Yielding Hybrid**

This new corn is without doubt the best hybrid of the Whipple's Yellow type.

It is a hybrid of great vigor, producing fine stands of strong sturdy plants which seem to grow by leaps and bounds and produce great crops of large even ears. There are usually two and often three good ears to a plant. It is truly a tremendous yielder of fine large ears and fills the gap between the extra early kinds and Whipple's Yellow.

These large ears are very uniform in size, fully eight inches long with 12-14 rows of bright yellow kernels and are very attractive in appearance. The quality is exceptionally high.

This corn matures a few days before Whipple's Yellow and from 10 to 12 days earlier than Golden Cross Bantam.

Northern Cross is a product of our own breeding here in the North, being a cross between two of our own pure line inbreds and can be produced only by us. This fine corn is an outstanding market variety and urge our customers to make a planting this year. See prices on page 13.

**Caution:** Northern Cross is not resistant to Stewart's Disease (wilt). We advise growers in sections where wilt is prevalent to use Early Bancross 39 described on page 12.

**Golden Early Market (Gill's)—Grow for Extra Early Large Ears**

This corn has become the most popular early variety because it produces large attractive ears very early and thus commands the highest prices. *It is important to get true seed.*

We obtained our stock from the originators and have grown and improved it here in the North for the past six years. You can depend on the Harris' stock of Golden Early Market to produce early crops of uniformly large fine ears. See prices on page 13.

*SWEET CORN continued on next page.*

## Early Bancross 39

This new crossed corn has proved a winner for growers who want a large uniform ear maturing before Golden Cross Bantam. The ears are the same size and shape as Golden Cross Bantam and are ready fully *ten days earlier*.

The plant is rugged and prolific, with the majority of the plants producing two good ears. In sections which had Stewart's Disease (wilt), Early Bancross 39 has produced large early crops where other corn has failed.

Our seed of this new hybrid has been produced under our careful supervision by a top cross of Purdue 39 on our *own* selected stock seed of Harris' Extra Early Bantam. This corn should be sown at the same rate as the open polinated varieties.

See prices on next page.

### Harris' Extra Early Bantam—*The Heaviest Yielding Extra Early Sort*

Since we introduced this corn in 1927 it has proved one of the most profitable varieties for the grower ever offered. It is not only an extremely heavy yielder but is one of the earliest varieties, maturing ears which can be sold at high prices before the market becomes flooded with corn.

The ears resemble true Golden Bantam in size and shape and high quality but mature ten days earlier. They are up to 7" long with 8-10 rows of golden yellow kernels, very uniform in size and appearance and of fine quality. See prices on next page.

Early Bancross 39  
Noted for its large, uniform ears

## Whipple's Yellow

### Harris' Original Northern Grown Stock

We are the *original* introducers of Whipple's Yellow Corn and since its introduction in 1920 we have constantly bred and selected it for earliness, uniformity of size and high yield.

We have seen many other stocks of Whipple's Yellow grown in comparison with our own, and without exception ours stands head and shoulders above all the rest. *You cannot afford to grow just an ordinary strain of this fine corn.*

Every pound of this variety which we sell is grown here in the North, on or near our own farm, from our own carefully bred stock seed. The only safe way to do is to buy your seed direct from headquarters and you will be sure that you are getting the true original Whipples Yellow.

*Note. When ordering please write "Whipple's Yellow" not just "Whipple's" as that will confuse it with Whipple's Early which is a white corn. See prices on next page.*

## Golden Cross Bantam

### Wilt Resistant—High Yielding—Uniformly Large Ears

Golden Cross Bantam has established itself as the most important hybrid corn for market and canning, especially in places where wilt (Stewart's Disease) is troublesome. The demand has been so great that many inferior stocks are being offered. Growers should be particularly careful to get their seed from reliable sources. You can depend on our stock. It is outstanding for uniformity and high yield. Every pound was grown here in Western New York from tested pure line parents and the crop was thoroughly detasseled.

This stock will produce large crops of beautiful ears, having 10 to 14 rows of light golden yellow kernels which are remarkably uniform in length (about 8 in.) and of excellent quality. They mature about a week later than Golden Bantam, the whole crop ripening at nearly the same time.

Sow not more than six pounds per acre.

See prices on next page.

## Seneca "60"—The Earliest Hybrid

This new corn is the earliest Hybrid and one of the earliest varieties grown. In our trials last year it was ready in 65 days and *we have seen it mature in sixty days*.

The stalks are 4 to 4½ feet tall, with ears about 6 inches long, eight rowed, and ripening a large part of the crop over a short period of time. We recommend this corn to growers who have been using Golden Gem. See prices on next page.

*SWEET CORN continued on next page.*

**When Different Varieties Mature**

We give after the names of the different varieties listed in this catalogue the approximate number of days required in which the corn matures after planting. As the time required varies greatly according to the weather, time of planting, and fertility of the soil the figures should be regarded as relative rather than actual, although they are taken from our 1938 trials which were planted about the middle of May.

**SWEET CORN—Yellow Varieties**

*Note: 25 lbs. or more of any one variety will be supplied at the 100 pound rate.*

	NOT PREPAID*			
	1 lb.	6 lb.	12 lb.	100 lb.
<b>BANTAM EVERGREEN.</b> (86 days)..... One of the best late yellow corns. Ears large, better than most stocks grown. Straight rowed and fine quality.	\$ .25	\$1.15	\$2.05	\$14.00

"For four years I've supplied the towns-people, Reddy's Market, and a large boy's camp with Harris' corn. So far I've had no complaints as to the size and quality of the ears. In fact, I've had hard work in meeting the demand during the busy season. I've tried every seed-house but you can't beat Harris' tested seed in quality and quantity of production."  
Bruce Symonds, Contoocook, N. H. May 17, 1938

Gurken (Ger.)

# CUCUMBERS

Cetriolo (It.)

*1/4 lb. of seed will plant about 300 hills or 200 ft. of row. It requires about 2 lbs. of seed per acre in hills or 3 to 4 lbs. drilled.*

**Harris' Perfection Cucumbers**

*The dark color and attractive appearance brings top prices on the market.*

## Harris' Perfection

### The Grandest Long Green White Spine

*If you want the finest long white spine cucumber grow Harris' Perfection.*

The fruit is straight, smooth and handsome, deep green in color with small white rays at the blossom end. It retains this deep green color for a long time after picking. The cucumbers will average well over eight inches long when ready for market and are just the right thickness.

Since we introduced Harris' Perfection in 1916, the stock has been under our entire control and we have worked constantly to improve the type, yield and uniformity. Even though there have been several very fine varieties of this type introduced in the past few years, many of our customers tell us they prefer Harris' Perfection because it commands a premium over other kinds.

This variety is adapted for dill pickles as well as for general market. See prices below.

## Straight Eight—A Very Prolific Long White Spine

This new variety has become very popular among growers because of the large yield of fine straight cucumbers. When ready for market the cucumbers are 8 to 9 inches long, straight and smooth. The color is medium dark green with green rays at the blossom end. We can recommend Straight Eight for a money making crop. See price on next page.

## A & C—A Fine New Long White Spine Variety

This new cucumber has rapidly come to the fore among the long green white spined varieties and we are pleased to be able to offer to our customers a fine true stock of this popular kind.

The cucumbers are long, not too thick, smooth and dark green in color, making a very fancy pack. They are produced in great abundance on strong healthy vines. See prices below.

	Oz.	¼ lb.	lb.	10 lb.	100 lb.
<b>Improved Long Green</b> .....	\$ .15	\$ .40	\$1.25	\$11.50	\$105.00
Very popular for both table use and for pickles. A Black Spine variety and turns deep yellow when ripe.					
<b>IRONDEQUOIT HOTHOUSE. For Forcing. See below</b> ....	.....	.....	.....	.....	.....
<b>LONGFELLOW. Long Slender Dark Green</b> .....	.20	.55	1.75	15.00	140.00
We have the true strain with long smooth dark green fruit of highest quality which always commands good prices.					
<b>NATIONAL PICKLE. For small pickles</b> .....	.15	.30	1.00	9.00	80.00
A very prolific variety producing large crops of uniform pickles of the type selected as best by the leading pickle packers in the country. Ours is the true strain.					
<b>STRAIGHT EIGHT (New). See page 14</b> .....	.15	.45	1.50	14.50	135.00
<b>West India Gherkin</b> .....	.25	.70	2.20	20.00	190.00
<b>WOODRUFF'S HYBRID. First Class Stock</b> .....	.15	.40	1.10	10.00	90.00
Grows 8 to 10 in. long and stays green a long time. We have a very fine strain.					

**Harris' Double Yield—Enormous Yields of the Finest Pickles**

Since we introduced this variety a number of years ago it has become increasingly popular among growers because of the enormous yield of fine straight pickles. The young cucumbers are produced in clusters of three or four like the fingers of your hand.

The cucumbers are very straight with blunt ends, medium deep green in color and of the very best shape for small pickles. This is also the earliest variety we know, enabling growers to plant late and still get a large yield of fine fruit.

See prices on page 14.

Double Yield Pickles

**Irondequoit Hothouse—Greenhouse Bred Strain**

This is the famous variety which has been developed by the greenhouse growers around Rochester. The seed has been saved for us entirely from perfect fruit grown under glass by an expert cucumber grower in Irondequoit. It will produce remarkably fine uniform cucumbers. The fruit is long, slender, and deep green, nearly perfectly solid with very few seeds. The vines are vigorous and very prolific.

100 seeds \$1.00; 500 seeds \$4.00; 1000 seeds \$7.00.

**CHICORY**

**WITLOOF or FRENCH ENDIVE.** We offer a fine true strain of this popular salad plant. For description and price of seed see under Endive on page 16.

**COLLARDS**

**GEORGIA.** Large cabbage-like leaves, which grow loosely on stems 2½-3 ft. tall. Does not form heads. May be sown in spring and transplanted like cabbage or drilled in June or July. Popular in the South for table use and stock feeding. Oz. 10c; ¼ lb. 25c; lb. 75c

**Feld Salat (Ger.)                      CORN SALAD or Fetticus                      Valeriannt (It.)**

**LARGE ROUND-LEAVED.** Market Gardener's Dark Green Strain. The leaves are uniformly large, and dark green. Yields large crop. Oz. 15c; ¼ lb. 40c; lb. \$1.25.

**Garten-Kresse (Ger.)                      CRESS                      Agretto (It.)**

**EXTRA FINE CURLED—**Also called Pepper Grass. We offer the true stock of this variety. Oz. 10c; ¼ lb. 25c; lb. 75c.

**WATER CRESS. Improved Broad-leaved.** This is a much better strain than the common Water Cress. Excellent also for forcing in greenhouses and frames. Oz. 45c; ¼ lb. \$1.25; lb. \$4.00.

**Loewenzahn (Ger.)                      DANDELION                      Dente di leone (It.)**

	Oz.	¼ lb.	lb.	10 lbs.
<b>LARGE THICK LEAVED. Dark Green (Arlington Strain)</b> .....	\$ .50	\$1.35	\$4.50	\$40.00
This strain is the thick leaf, dark green variety. Strong upright growing plant, with good hearts.				
<b>FRENCH STRAIN</b> .....	.50	1.35	4.50	40.00
This seed produces large stocky thick leaved plants. The plants are not as upright as the above strain.				
<b>ITALIAN DANDELION. Cicoria Catalogna</b> .....	.30	.90	3.00	.....
Large dark green dandelion like leaves, which are cut several times during the season for "greens." Ours is the true Italian stock.				

**Dill (Ger.)                      DILL—Long Island Mammoth                      Aneth (It.)**

Long Island Mammoth is much superior to the common dill, being larger and more productive. Oz. 10c; ¼ lb. 20c; lb. 70c; 10 lbs. \$6.00; 100 lbs. \$55.00.

# EGG PLANT

*Eier pflanze (Ger.) Melanzani (It.)*  
*An ounce of seed will produce about 2000 plants.*

## New Hampshire Hybrid

*Early and Prolific*

*A 1938 All American Selection*

*Originated by Prof. J. R. Hepler at the New Hampshire Agricultural Experiment Station.*

We think New Hampshire Hybrid should be called "Northern Beauty," as it is an early Black Beauty for northern growers.

This new variety will be of great benefit to growers who have had difficulty in producing egg plants profitably in the North.

It is earlier than Black Beauty, grows fine dark colored fruit plenty large enough for our markets and is remarkably prolific. On our farm this year it produced 8 to 10 good size fruits and several smaller ones on a single plant. Try some this year. See prices below.

**New Hampshire Hybrid**

*A typical plant with the leaves cut away to show the abundance of fruit.*

	Oz.	1/4 lb.	lb.
<b>BLACK BEAUTY. True Stock</b> .....	\$ .50	\$1.35	\$4.50
<i>We can strongly recommend this stock as it is the finest strain of Black Beauty that we have ever seen. The plants are strong and sturdy, producing an abundance of uniformly large handsome dark purple fruit even here in the North.</i>			
<b>EARLY LONG PURPLE. Early and Prolific. Dark. True Stock</b> .....	.45	1.20	4.00
<i>Fruit 10 to 12 in. long, not over 2 to 3 in. through. Early and very prolific, deep purple.</i>			
<b>Extra Early Dwarf Purple or Black King</b> .....	.45	1.20	4.00
<i>Very early, dark and prolific, but not as large as above kinds.</i>			
<b>NEW HAMPSHIRE HYBRID. (New) See above</b> .....	1/4 oz. 30c	.90	3.00

*Fenchel (Ger.)*

## FENNEL

*Finocchio (It.)*

**MAMMOTH (Improved Florence). Large Round Bulb. Best for Market.** This exceptionally fine strain produces large, round bulbs. Oz. 15c; 1/4 lb. 45c; lb. \$1.50.

*Endivien (Ger.)*

## ENDIVE

*Endivia (It.)*

	Oz.	1/4 lb.	lb.
<i>An ounce of seed will sow about 100 feet of row; 2 to 2 1/2 lbs. per acre.</i>			
<b>GREEN CURLED PANCALIER. Best for Late Market. Pink Ribbed</b> .....	\$ .15	\$ .40	\$1.25
<i>The leaves are not so finely cut as the Green Curled. Has fuller, heavier hearts. A favorite of market gardeners. This variety does best on rich soil.</i>			
<b>GREEN CURLED. Also called "Chicory." Green ribbed</b> .....	.15	.40	1.25
<i>Large leaves finely cut and curled. Exceptionally uniform with a fine heavy heart.</i>			
<b>FLORIDA DEEP HEART</b> .....	.15	.45	1.50
<i>Broad leaves, dark green, slightly curled, produces large deep heads, which blanch well in the center. One of the best varieties, especially for late market.</i>			
<b>FULL HEART BATAVIAN (Escarolle). True Dark Green Strain</b> .....	.15	.45	1.50
<i>Our strain of this variety produces heads which are tightly packed with broad dark green leaves. Blanches well. A very superior strain.</i>			
<b>FRENCH ENDIVE—Witloof Chicory. Special Forcing Strain</b> .....	.30	.85	2.75
<i>The seed we offer is an exceptionally fine strain, being grown from especially selected fully developed forced heads and will give a very high percentage of perfect heads. An ounce of seed will produce 3000 to 5000 roots.</i>			

*Knoblauch (Ger.)*

## GARLIC

*Aglio (It.)*

The bulbs should be separated into flakes or "cloves" and set out like onion sets. Bulbs for planting: Lb. 35c; Transportation paid. Not paid: 5 lbs. or more 25c per lb.

*Blatterkohl (Ger.)*

## KALE

*Cavolo verdi (It.)*

	1/4 lb.	lb.	10 lb.
<i>One pound of seed will sow about one acre of land.</i>			
<b>DWARF CURLED or Blue Scotch</b> .....	\$ .30	\$ .90	\$8.00
<i>Very fine curled leaves, of dwarf habit and deep bluish green color.</i>			
<b>SIBERIAN. Also called "Sprouts"</b> .....	.20	.60	5.50
<i>Dwarf spreading, broad leaves curled only at the edges. Color blue gray. Very hardy.</i>			

*Kohlraben (Ger.)*

## KOHL RABI

*Cavolo rapa (It.)*

	Oz.	1/4 lb.	lb.	10 lb.
<i>An ounce of seed will sow about 200 ft. of row.</i>				
<b>EXTRA EARLY WHITE. (New)</b> .....	\$ .35	\$1.00	\$3.25	\$30.00
<i>A very superior short top strain, maturing before Early White Vienna. A very uniform stock, best for outdoor and forcing.</i>				
<b>Early White Vienna</b> .....	.20	.55	1.75	16.50
<i>Round white bulbs, early. Can be used 10 weeks after sowing.</i>				

*Lattich (Ger.)*

# LETTUCE

*Lattuga (It.)*

An oz. of seed will sow 250 ft. of row.  
About 2 lbs. per acre.

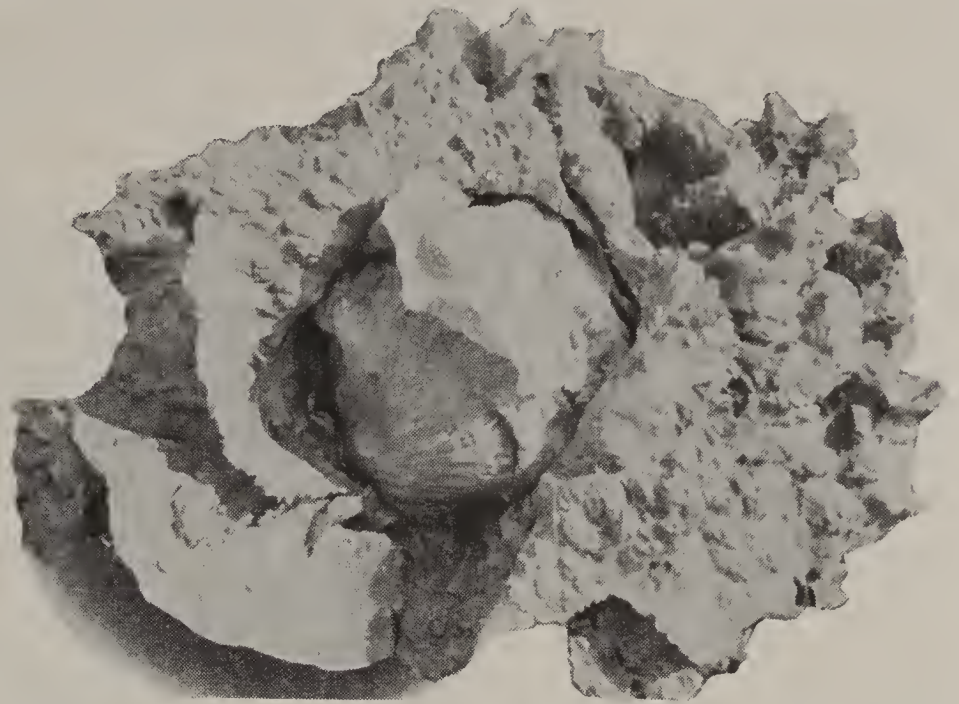

## Imperial 847

*Long standing "Iceberg" for the East*

This new lettuce is outstanding for its ability to produce fine solid heads of "Iceberg" lettuce under a variety of conditions. It is one of the few kinds that will succeed on both muck and upland and produce good heads in July as well as early spring or fall.

The heads are uniformly large, very solid and attractive in appearance. They handle and ship well.

We recommend this variety highly. See prices below.

Imperial 847 Lettuce

## White Boston Special Strain

One important thing about the Harris' Strain of White Boston is the uniform manner in which it heads, so that there is practically no waste in cutting a crop.

It has proved itself more resistant to tip burn than any variety we have ever seen.

You cannot get a better strain of White Boston Lettuce no matter what you pay for the seed. Our stock is fully equal to any strain obtainable. See prices below.

	Oz.	1/4 lb.	lb.	10 lb.
<b>BIG BOSTON. Special Strain.</b> ..... (100 lbs. \$90.00)	\$ .15	\$ .40	\$1.25	\$10.00
An exceptionally fine strain of this popular variety. The heads are solid and compact, and stand a long time. There is no better stock.				
<b>Black Seeded Simpson</b> .....	.15	.40	1.25	11.50
An excellent loose headed variety.				
<b>Chicken</b> .....	.10	.30	1.00	9.00
Immense leaves. Runs up rapidly. Use for green feed for chickens.				
<b>COS or ROMAINE. Trianon Self-folding. The best variety</b> .....	.15	.45	1.50	14.00
Large long heads of fine quality and attractive appearance. Used for forcing under glass and outdoor culture. Always finds a ready sale.				
<b>GRAND RAPIDS</b> .....	.15	.45	1.50	14.00
This strain is excellent for greenhouse growing and is used by the most critical greenhouse men. The leaves are light green, uniformly well curled and the plants strong and sturdy.				
<b>GRAND RAPIDS. U. S. No. 1</b> .....	.25	.70	2.20	20.00
This new strain of Grand Rapids has proved to be very superior both for forcing and outdoor growing where a leaf or "curly" lettuce is desired and is well worth trying. The plants are a little more robust than other strains and fill out more, very uniform for size and well curled. The color is the much desired light green.				
<b>IMPERIAL 847. (New) See above</b> .....	.30	.85	2.75	25.00
<b>Iceberg</b> .....	.15	.45	1.50	14.00
For open ground. Large, firm heads, curled and blistered leaves; light green.				
<b>May King. For Frame Forcing</b> .....	.15	.40	1.25	11.50
A very early head lettuce for open ground or forcing.				
<b>NEW YORK No. 12—California "Iceberg." For the East</b> .....	.20	.60	1.85	17.50
This improved early strain of this variety is especially valuable for the East, and is still preferred by many growers.				
<b>NEW YORK No. 515. Improved "Iceberg" Type</b> .....	.25	.70	2.20	20.00
Earlier than New York No. 12 and preferred by most growers. Heads are very large, solid and of fine quality. This is the true sure heading strain which has pleased our customers for a number of years.				
<b>SALAMANDER. (Dreer's All Heart or Black Seeded Tennis Ball)</b>	.15	.40	1.25	11.50
Large heads, stands well in hot weather.				
<b>WHITE BOSTON. Special Strain. See above</b> ... (100 lbs. \$125.00)	.20	.55	1.75	15.00

*Lauch (Ger.)*

# LEEK

*Porro (It.)*

	Oz.	1/4 lb.	lb.
<b>ELEPHANT. Large thick stalks</b> .....	\$ .30	\$ .85	\$2.75
This new variety is a distinct improvement over the old kinds of leek. The stalks are large and very sturdy. The bottoms clear pearly white and smooth with the white part extending far up the stalk. An ounce of seed will sow about 200 feet of row.			

*Melone (Ger.)***MUSKMELON or Cantaloupe***Popone (It.)**An ounce of seed will plant about 50 hills; 2½ to 3 lbs. per acre.***Harris' Muskmelon Seed**

Growing seed of early highly productive and fine quality muskmelons for northern Market Gardeners has been one of our specialties for over twenty years. Our strains are now considered the standard of excellence and you can be sure that ours are the best muskmelons for the North.

**Market King*****A Fine New Kind for Market and Shipping***

We find this new variety an exceptionally good melon for shipping as well as for local markets where a medium size melon is wanted. It is very similar to a number of varieties, such as Pride of Wisconsin, Queen of Colorado, A & C and Jersey Gold.

These melons are remarkable for their uniformly high flavor. You can actually cut hundreds without finding a poor melon.

The fruits resemble Sugar Rock but are more oval in shape and considerably larger. They grow very evenly for size and are extremely heavily netted. The skin is pale green turning creamy yellow when ripe. The flesh is very thick with a small seed cavity, deep orange in color and of fine texture.

The vines are more healthy and vigorous than any kind we have seen, producing an enormous yield of fine fruit. This melon ripens normally a week later than Bender's and practically the same time as Sugar Rock. See price on next page.

**Market King Muskmelons**

*"I have been growing melons of high quality for over 15 years and I believe I can judge melons. I can honestly say that melon (Market King) is the best I have ever tasted.*

*If these melons will continue to grow as such you certainly have got something for the melon growers who want high quality. I have bought your seeds for a great many years and found them to be the most true to name seeds I have ever purchased."*  
Merrill C. Zweig—Averill Park, N. Y., Sept. 12, 1938.

**Bender's Surprise****Harris' Specially Selected Northern Grown Strain**

This is without doubt the leading large melon for the East. These large, heavily netted melons have no equal for combined attractive appearance, fine flavor and long keeping qualities.

We have bred and grown this stock for over twenty years here on our own farm always paying special attention to high quality, earliness and trueness of type. This careful selection has made ours the *one* outstanding stock of this variety.

There is no use buying inferior seed when Harris' Northern Grown Strain can be purchased at the low price we charge. See price on next page.

NOTE. Be sure to get your Harris' Strain of Bender's direct from us as we do not sell to dealers.

*"I have planted your Bender's Surprise melons for several years. Think they are the best melon I have ever raised. Have a good market at my door for them."* Hugh H. Baldwin, Charlestown, N. H., April 23, 1937.

**Seeding  
Delicious Melons  
on our  
North Farm.**

*Note the uniform  
size of this crop.*

*See description at top  
of next page.*

**MUSKMELONS  
continued on  
next page.**

MUSKMELONS—Continued

**Delicious—The Earliest Large Melon**

This fine melon is becoming more and more popular for local sales and roadside stands. It is the earliest large melon of high quality grown, and we recommend it highly for roadside trade and local markets. It will not stand long distance shipping.

Our strain is noted for the large yield, vigor of vine, uniform size and type and remarkably fine flavor. If you grow melons plant some Delicious. See prices below.

	Oz.	¼ lb.	lb.	10 lb.
<b>ARISTOCRAT. Superb Quality</b> .....	\$ .35	\$1.00	\$3.25	\$30.00
Large with very thick flesh of unexcelled quality. Does not keep well enough for general shipping, but at roadside stands will command highest prices because of the fine quality and attractive appearance.				
<b>BENDER'S SURPRISE. "Harris' Special Strain."</b> See page 18...	.25	.75	2.50	22.50
<b>DELICIOUS. The Earliest Large Melon.</b> See above and page 18..	.25	.75	2.50	22.50
<b>Emerald Gem</b> .....	.15	.35	1.10	10.00
Small, round, green, slightly netted, with yellow flesh of finest flavor; very early and prolific. A very uniform stock.				
<b>Golden Champlain. Also called Lake Champlain</b> .....	.20	.55	1.75	16.50
The earliest melon and valuable on that account. Melons are medium size.				
<b>HALE'S BEST. For Distant Markets</b> .....	.15	.35	1.10	10.00
The earliest and best of the Rocky Ford type for the East. Medium size, oval fruit. Very heavily netted. Flesh thick, deep orange and of finest quality. The melons are remarkably uniform in size, shape and quality.				
<b>Hearts of Gold</b> .....	.15	.40	1.25	11.50
A fine melon for shipping medium in size, round and well netted. Flesh thick, orange yellow, of uniformly excellent flavor. We have a fine stock of this well known variety.				
<b>MARKET KING. New.</b> See page 18.....	.25	.75	2.50	22.50
<b>SUGAR ROCK. Also called "Honey Rock."</b> .....	.15	.45	1.50	14.00
We have a fine stock of this popular melon which is largely grown in many sections because of its attractive appearance, fine flavor and ability to stand handling. The melons are nearly round, about 5" in diameter.				

*Wasser-Melone (Ger.)*

**WATERMELONS**

*Cocomero d'acqua (It.)*

*An ounce of seed will plant about 25 hills; 2 to 3 pounds to the acre.*

The varieties we have listed here are all suitable for growing in the North, as they are early kinds and in our climate under usual conditions will produce ripe fruit before frost from seed sown in the open ground. See our general catalogue for full descriptions.

	Oz.	¼ lb.	lb.	10 lb.
<b>FORDHOOK EARLY</b> .....	\$ .10	\$ .25	\$ .75	\$ 7.00
<b>HUNGARIAN HONEY. The Sweetest Watermelon</b> .....	.12	.30	1.00	9.00
<b>KLECKLEY'S SWEETS</b> .....	.10	.25	.70	6.50
<b>STONE MOUNTAIN. Try This One For Market</b> .....	.12	.30	1.00	9.00
Large, oval somewhat flattened ends. Fine quality and prolific.				
<b>WINTER QUEEN. White Skin. Long Keeper</b> .....	.12	.30	1.00	9.00
<b>WONDER MELON (New)</b> .....	.12	.30	1.00	9.00
The largest and best of the oblong varieties for growing in the North. They are early, dark green with bright red flesh of fine quality. Will produce large crops even where the seasons are short.				
<b>GREEN CITRON or Colorado Preserving</b> .....	.10	.25	.75	7.00
Not a true watermelon, outer flesh is used in preserving. Very prolific. Green seeded.				

*Champignonbrut (Ger.)*

**MUSHROOM SPAWN**

*Fungo pratajola (It.)*

*Full directions for growing are sent with each order of spawn.*

Finest pure culture spawn, absolutely fresh. Mushrooms can be raised in cellars or under greenhouse benches where the temperature can be kept between 50 and 60 degrees.

Ours is pure culture spawn grown by one of the largest mushroom producers.

**BOTTLE SPAWN. (White).** Grown in bottles under sterile conditions after which the bottle is removed and the spawn packed in a carton. One carton will spawn 40 sq. ft. of bed. Price: Single Carton \$1.25; 3 cartons \$3.00. Prepaid. Not prepaid: 10 or more cartons at 80c per carton. Weight per carton about 1 lb. Write for prices on larger quantities.

**MUSTARD**

*An ounce of seed will sow about 300 feet of row.*

	Oz.	¼ lb.	lb.	10 lb.
<b>FORDHOOK FANCY. (Long Standing)</b> .....	\$ .10	\$ .25	\$ .75	\$ 7.00
Leaves are slightly smaller and more finely cut and curled than the Southern Curled. A very pure stock.				
<b>LONG STANDING. (Southern Curled)</b> .....	.10	.25	.75	7.00
Will stand without bolting to seed for a long time. During the hottest part of the summer this variety has stood for three weeks after it was large enough to cut, without going to seed. The leaves are a medium dark green with beautiful finely curled edges.				

*Ocher (Ger.)***OKRA or GUMBO***Ocra (It.)*

**PERKINS' LONG-POD.** Standard Market Variety. Large green pods. Ours is a true uniform stock. *An ounce of seed will sow about 50 feet of row. Oz. 10c; ¼ lb. 25c; lb. 65c.*

*Zweibel (Ger.)***ONIONS***Cipolle (It.)*

*An ounce of seed will sow 125 feet of row.  
It requires 5 to 6 lbs. of seed per acre.*

### Early Yellow Globe The Best Early Yellow Onion

Earliness, enormous crops, fine appearance and unusually good handling and keeping qualities are the attributes of this onion which have made it jump to a leading variety for upland and muck, in the few years since it was first introduced.

The onions mature at least two weeks before Yellow Globe Danvers, are globe shaped, deep yellow in color and with a good skin.

We are pleased to offer the same true stock of Early Yellow Globe which has produced such fine crops for our customers during the past five years. See prices on next page.

Mr. L. R. Gillard of Elba, N. Y. and part of his fine crop of Harris' Early Yellow Globe Onions.

**Riverside Sweet Spanish**

This fine onion can be grown almost anywhere in the East and is becoming more popular each year. It is an excellent variety both for upland and muck. The onions are large and handsome often weighing a pound or more and are fine keepers.

They require a little more time than the early varieties but are vigorous, hardy growers, withstanding adverse growing conditions better than any other kinds we know. See prices on next page. See also plants on next page.

Brigham  
Yellow Globe

*This onion is noted  
as a long keeper.*

**Brigham Yellow Globe**

*Also called "Michigan Onion" and  
"Michigan Strain"*

This remarkable onion together with Early Yellow Globe has virtually superseded all other kinds for growing on muck and is also a very popular upland variety.

It is outstanding because of the large yields obtained, the fine rich golden color together with a heavy thick skin which makes it the best variety for storage.

The seed we offer is of the true **Brigham Strain** deep globe in shape and even more uniform for shape and size than it was when first introduced. See prices on next page.

**GERMINATION TESTS**

Every package of Harris' Seeds is marked with the germination test. We will be glad to tell any onion grower how our seed of any variety germinates in our tests before he buys the seed.

**Harris Onion Sets**

We supply clean, firm, uniform and true to name onion sets. These are the best onion sets that can be obtained. See prices and varieties under ONION SETS on next page.

One of our customers writes:—

*"Your Ebenezer onion sets you sent me last year were the best sets I ever saw.*

*Alfred T. Knapton, Quincy, Mass. March 30, 1938.*

**ONIONS continued on next page.**

ONIONS—Continued

	¼ lb.	lb.	10 lb.	100 lb.
<b>BRIGHAM YELLOW GLOBE.</b> Also called "Michigan Onion." See preceding page	\$.60	\$1.95	\$18.50	\$175.00
<b>EARLY YELLOW GLOBE.</b> Best early globe onion. See preceding page	.65	2.30	21.00	200.00
<b>EBENEZER</b> or "Japanese." Grow for sets. This very fine yellow onion will keep all winter and has a mild, pleasant flavor. They are flattened and of a light, yellow color. It is important to get the true Ebenezer. We have it.	.55	1.75	16.00	150.00
<b>EXTRA EARLY BARLETTA.</b> For Pickling. The best small white onion for pickling. Sow about 50 lbs. per acre.	.60	2.00	19.00	185.00
<b>JAPANESE BUNCHING.</b> Large straight onions Make 3 to 5 large straight mild white onions to a plant, is a rapid grower and produces marketable "bunch" onions very early. When fully grown, the onions are nearly an inch in diameter.	.70	2.25	20.00	195.00
<b>Mammoth Silver King.</b> Very large white, flat onion used principally for bunching while green. Seed sown in the spring makes large bunching onions in July and August.	.60	1.95	18.50	175.00
<b>Prizetaker.</b> This onion has been superseded by Riverside Sweet Spanish, a much better variety.	....	....	....	....
<b>RIVERSIDE SWEET SPANISH.</b> See preceding page	.60	1.95	18.50	175.00
<b>SOUTHPORT RED GLOBE.</b> The Best Red Onion Large, perfectly round, deep red onion; keeps well and is by far the best red variety. Ours is a very superior stock.	.60	1.95	18.50	175.00
<b>SOUTHPORT WHITE GLOBE.</b> (The Finest White) The largest and finest white onion. A very profitable variety for experienced growers as it always commands the highest prices.	.65	2.30	21.00	200.00
<b>SOUTHPORT YELLOW GLOBE.</b> Large deep globe. True stock.	.55	1.75	16.50	155.00
<b>WHITE BUNCH.</b> (White Lisbon) Popular in many markets. Forms mild sweet "green" onions early and flat medium size bulbs when mature.	.60	2.00	19.00	185.00
<b>WHITE PORTUGAL</b> or <b>SILVER SKIN.</b> Standard for Bunching Flat, white onions of mild flavor and early. Excellent for pickling and early green onions.	.60	1.80	17.00	160.00
<b>YELLOW GLOBE DANVERS.</b> Our stock of this popular variety will produce onions of uniform globe shape with deep color and tight skin. We know of no better stock.	.60	1.75	16.00	150.00

ONION SETS

One peck of sets will plant 600 to 700 feet of row. Use 12 to 20 bu. per acre.

NOTE. At prices here quoted purchaser pays transportation on onion sets.

**EBENEZER** or "JAPANESE." The Best Yellow Sets. True Stock. 8 lbs. (Pk.) \$1.00; 32 lbs. (Bu.) \$3.00; 5 bu. or more at \$2.85 per bu.

**SILVERSKIN** (White). Best for bunching. 8 lbs. (Pk.) \$1.20; 32 lbs. (Bu.) \$3.50; 5 bu. or more at \$3.35 per bu. Write for prices on larger lots.

ONION PLANTS

These plants which are grown in Texas have proved excellent for raising both early green onions and dry bulbs for late summer sale. More gardeners find it profitable each year to grow onions from our plants and our sales of onion plants in the past few years have steadily increased from a few thousand to over a million each year.

We offer the following two kinds which have proved the most satisfactory.

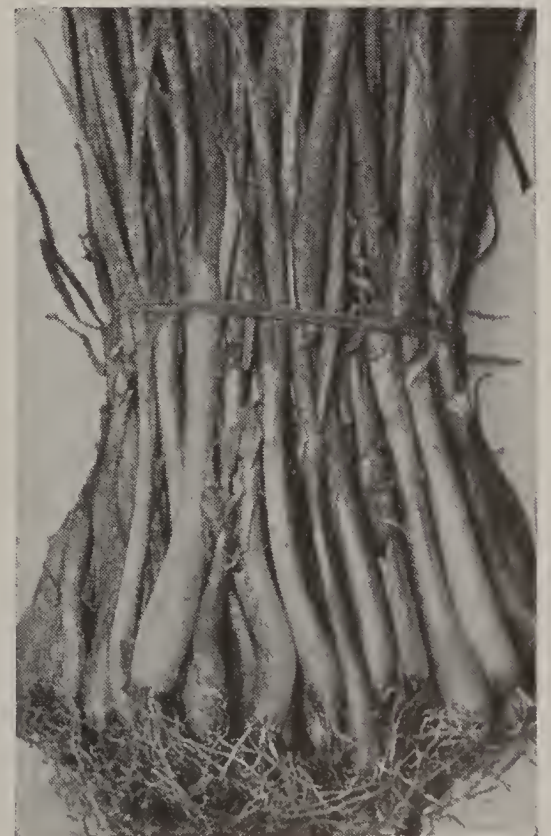

**RIVERSIDE SWEET SPANISH.** (Yellow). When set in the spring will produce large firm onions in 8 to 10 weeks. Grown from true seed; produces large onions of the finest type.

**CRYSTAL WAX.** (White). Best to grow for green bunching onions. If allowed to mature the onions are large, flat, white and of superb flavor.

Price of either variety: 10 bunches (about 1000 plants) \$1.50; Full crate (about 6000 plants) \$6.00. Purchaser pays transportation. Weight per 1000, 6 lbs. Write for prices on larger lots.

The above plants are tied in bunches of about 100 plants; 60 bunches (about 6000) make a full crate.

NOTE. Onion plants can be supplied between April 25 and May 15th only. These plants can be ordered at any time for shipment between the above dates. Please state on the order when you want the plants sent.

A Single Bunch of Onion Plants  
(about 100 plants)

*Petersilie (Ger.)***PARSLEY***Prezzemolo (It.)**An ounce of seed will sow about 200 ft. of row.***Paramount—The Outstanding Parsley**

This is the finest and most uniformly curled strain of parsley we have ever seen. The color is a rich deep green, there are no flat leaves. The stems are of good length. Altogether this is a superb variety both for outdoor growing and forcing and we recommend it highly. See prices below.

	Oz.	$\frac{1}{4}$ lb.	lb.	10 lb.
Champion, or Triple Moss Curled.....	\$ .10	\$ .25	\$ .80	\$ 7.50
<i>This is a good parsley but not as finely curled as some of the others.</i>				
DWARF PERFECTION. Finely Curled.....	.15	.40	1.25	11.00
<i>This is a very superior strain of parsley. The leaves are beautifully cut and curled with practically no plain leaves. The color is uniform dark green and the stems a little longer than Paramount.</i>				
HAMBURG. Long or Parsnip Rooted. Selected Stock.....	.10	.25	.80	7.50
<i>The roots are 8 in. long parship-shaped, smooth and white. We have a very fine stock of this variety, which produces long straight roots. We have never seen a better strain.</i>				
PARAMOUNT. The Best Variety. See above.....	.12	.30	1.00	9.00
Plain—Uncurled leaves, used for flavoring.....	.10	.25	.80	7.50

*Erbesn (Ger.)***PEAS***Piselli (It.)**One pound of peas will plant 100 ft. of row. Two to five bushels per acre.**25 lbs. or more of one variety will be supplied at the 100 lb. rate.*

\*At the prices here quoted peas cannot be sent prepaid. Purchaser pays transportation on peas except as follows: If your order for vegetable seeds including peas amounts to \$20.00 or more we will prepay the freight charges.

**Mammoth Podded Extra Early  
The Most Profitable Early Kind**

The pods are deep green in color, 4 inches long and borne in great profusion on strong vines.

Seed semi-wrinkled. *The seed we offer is from the true originator's stock producing an abundance of pods which are the true large early type.*

This is a very hardy early pea which can be sown very early, as soon as frost is out of the ground, and produces fine crops of large attractive pods to sell while prices are high. It has proved one of the most profitable market varieties grown. See prices on next page.

**Dwarf Alderman****A True Large Podded Alderman Type with  
Dwarf Sturdy Vines**

This new large podded dwarf pea has become very popular for main crop as the large dark green pods are most attractive and command the best prices.

The pods are borne in great abundance on strong sturdy vines about 2 ft. high, which require no support. Matures about the same time as Alderman. See prices on next page.

**Midseason Giant**

*Also called—Giant Stride, Asgrow 40, Number 10, Wyoming Wonder, etc.*

This variety comes on between the early sorts and the late varieties and has shown a remarkable ability to stand up and bear well in *hot dry weather*. The pods are large (4½ to 5 in. long) dark green and pointed. The yield is large, the pods being borne in great numbers on strong vigorous vines about 24 in. high. This is a high quality wrinkled variety and should not be sown until the weather is settled. See prices on next page.

Mammoth Podded Extra Early  
(right) compared with First  
and Best.

**Rogers Gilbo—New Large Podded Main Crop Peas**

This fine new variety is one of the outstanding sorts of the Midseason Giant group, and resembles that variety very closely. Compared to Midseason Giant, Gilbo has the same sturdy vine and large yield of big pods, but is a few days earlier in season. Our experience shows also that Gilbo is more hardy so that the seed can be sown earlier than Midseason Giant. This is a real advantage.

The pods are very attractive, 4½ to 5 in. long, dark green and pointed. The quality is very superior. We recommend this new variety highly and urge growers to try it this year. See prices on next page.

PEAS—Early Varieties

	NOT PREPAID* (see page 22)				
	1 lb.	7½ lb.	15 lb.	56 lb.	100 lb.
<b>GRADUS, or Prosperity.</b> (2½ ft.) <b>Early</b> . . . . .	\$ .25	\$1.45	\$2.55	\$7.85	\$14.00
Early and of highest quality. Standard market garden variety.					
<b>HUNDREDFOLD (Blue Bantam or Impr. Laxtonian).</b> (20 in.)	.25	1.45	2.55	7.85	14.00
Much like Laxtonian, but larger and better. Vines very strong and sturdy. Pods 4 in. long and deep green. A fine early dwarf pea.					
<b>LAXTON'S PROGRESS.</b> (18 in.) <b>Large Pods. Medium Early</b>	.25	1.45	2.55	7.85	14.00
We offer a very superior stock of this excellent variety. Pods are very uniform deep green, 4 to 4½ in. long and produced in great abundance. Ordinarily two pickings will clean the vines.					
<b>LITTLE MARVEL.</b> (15 in.) <b>Very Prolific</b> . . . . .	.25	1.45	2.55	7.85	14.00
Very prolific, matures a day or two later than Nott's Excelsior and has pods a little larger; vines stocky.					
<b>MAMMOTH PODDED EXTRA EARLY.</b> (3 ft.) See preceding page . . . . .	.30	1.60	2.85	8.95	16.00
<b>Nott's Excelsior.</b> (15 in.) <b>Early</b> . . . . .	.25	1.35	2.40	7.28	13.00
Dwarf vines, medium-sized pods; one of the best early dwarf peas.					
<b>THOMAS LAXTON.</b> (3 ft.) <b>Early</b> . . . . .	.25	1.45	2.55	7.85	14.00
Very early medium size pods. One of the standard and most profitable market varieties. Our stock is very fine.					
<b>WORLD'S RECORD.</b> (2½ ft.) <b>For Early Market</b> . . . . .	.30	1.50	2.70	8.40	15.00
Earlier and larger podded than Gradus. Of the finest quality and a most profitable kind to follow the extra early kinds.					

Medium and Late Varieties

<b>ALDERMAN.</b> (4½ to 6 ft.) <b>Dark Podded</b> . . . . .	.25	1.45	2.55	7.85	14.00
Larger pods and better yield than the old Telephone. This is the best pea in the Telephone class. Pods are often 6 in. long and of a deep green color. Our stock of Alderman is very superior.					
<b>Advancer.</b> (2½ ft.) . . . . .	.25	1.45	2.55	7.85	14.00
Pods three inches long, well filled; a heavy yielder.					
<b>DWARF ALDERMAN.</b> (New) (2 ft.) See opposite page . .	.30	1.50	2.70	8.40	15.00
<b>LINCOLN.</b> (2½ ft.) <b>Finest Quality</b> . . . . .	.30	1.50	2.70	8.40	15.00
Long narrow pods completely filled with 8 to 9 peas of highest quality. Produces immense crops which are very easily picked. A few days earlier than Alderman.					
<b>Mammoth Melting Sugar.</b> (4½ ft.) <b>Edible Pods</b> . . . . .	.30	1.90	3.45	11.20	20.00
<b>MIDSEASON GIANT.</b> (2 ft.) <b>Large Pods.</b> See opposite page	.30	1.50	2.70	8.40	15.00
<b>ROGERS GILBO (NEW)</b> (24 in.) See opposite page . . . . .	.30	1.50	2.70	8.40	15.00
<b>Telephone.</b> (4½ ft. to 6 ft.) . . . . .	.25	1.45	2.55	7.85	14.00
Our seed is of a superior strain, having large very deep green pods.					

PEANUTS

**EARLY SPANISH.** This is the earliest Variety. Can be grown successfully here in the North on light warm land. Lb. 35c; 5 lbs. \$1.50; 10 lbs. \$2.50.

PARSNIPS

*Pastinake (Ger.) Pastinaba (It.)*

An oz. will sow 150 ft. of row.  
2½ to 3 lbs. per acre.

**Harris' Model  
The Whitest Parsnip**

Our customers find this to be the best variety that they can grow.

These parsnips are snow white and smooth with practically no side roots or prongs. They are hollow crown and of good length, but not too long. Their smoothness is quite remarkable, giving the roots a very attractive appearance so that they usually sell for top prices on the market.

Our seed is entirely of our own growing from carefully selected transplanted roots.

Oz. 15c; ¼ lb. 40c; lb. \$1.20; 10 lbs. \$11.00; 100 lbs. \$100.00.

**LONG HOLLOW CROWN.** Long smooth roots, not as uniform or white as Model. Oz. 10c; ¼ lb. 25c; lb. 75c; 10 lbs. \$7.00; 100 lbs. \$65.00.

Harris' Model Parsnips  
Smooth white roots like these sell more readily.

*Pfeffer (Ger.)***PEPPERS***Peperoni (It.)**An ounce of seed will produce about 1000 plants.***Harris' Northern Grown Pepper Seed**

If you want to grow peppers for profit use Harris' Northern Grown Pepper Seed. We have specialized for over twenty years in growing peppers on our farm. Years ago we found out that the varieties which are usually grown in the long seasons and warmer climates farther south did not ripen enough fruit to make peppers a profitable crop in the north. So we developed a number of *early heavy bearing varieties*, which are suited to our conditions and will produce an abundance of ripe fruit where seasons are short.

Several of our peppers have become standard varieties for the North and much inferior Southern grown seed of these kinds is offered to growers. Don't take chances. Use our Northern bred and Northern grown seed to insure good crops. We do not sell to dealers.

**Harris' Wonder—New—Early—Prolific—Thick Meat***See Front Cover*

Harris' Wonder is a truly great pepper. It combines the smooth blocky thick fleshed type of California Wonder with high yield and earliness so that you get not only large crops of green peppers but an abundance of ripe fruit before frost.

The peppers are large, chunky, beautiful dark green turning to rich red when ripe. They are very thick meated and the quality is excellent. A level bushel weighs over 30 lbs.

Growers who had Harris' Wonder last year are most enthusiastic. Our 1938 crop was even more uniform and prolific. Grow some this year, we know you will like it. See prices on next page.

The photo on the front cover shows one of the young ladies from our office holding a single plant in our seed field of Harris Wonder. The bushel of peppers (inset) weighed 31 lbs. without the basket.

*"I thought it only fair to write a few lines about your grand King (King of the North) Pepper and Harris Wonder Sweet Pepper. They are two of the greatest I have ever grown."*  
Jan. 12, 1938 J. A. Rapson, Belleville, Ont., Canada

**Harris' "King of the North"  
Extremely Large, Early  
and Prolific**

Since we introduced this variety in 1934 it has earned a reputation of producing greater yields of large peppers here in the North than any variety grown.

The plants are medium size and branching. They are literally covered with the immense fruit. The size and shape of the peppers is well shown in the photograph to the left.

The flesh is firm, mild and sweet. If you have not done so we urge you to try these peppers this year. Be sure to get Harris' Northern Grown seed. See prices on next page.

Harris' "King of the North" Peppers  
*The plants are usually loaded.*

**Harris' Earliest—The Earliest Sweet Pepper**

Harris' Earliest is an invaluable variety for the extreme northern parts of the country where other peppers will not ripen. We grow and check in our trials practically every new pepper which is brought out and we have not seen one which is earlier. It is the result of over twenty years of growing here in the North and constantly improving it for size, earliness and yield. The plants are not large but are literally covered with medium size, attractive bright red fruit. If you want early fruit or have trouble getting peppers ripe we recommend that you plant Harris' Earliest.

See prices on next page.

**Harris' Improved SQUASH Pepper—Very Early and Heavy Yields**

*This pepper replaces the old type known as Squash, Cheese, Sunnybrook, etc.*

It is so early and prolific that it produces three times as many peppers as any other "Squash or Cheese" pepper which we have seen. This early character and high yield make it a profitable kind to grow even here in the north. The fruit is the true "Squash" shape, with very thick flesh which is mild and sweet. See prices on next page.

## Harris' Early Giant The Earliest Large Pepper

Harris' Early Giant which we introduced a number of years ago is recognized as the standard large early variety and gardeners in the North find it a very profitable crop to grow.

It will produce a large number of peppers about 4½ in. long and 4 in. across, and is only a week later than Harris' Earliest, the earliest pepper grown. See prices below.

Harris' Early Giant Pepper  
A favorite large early prolific variety.

### HARRIS' PEPPER PLANTS

We specialize in growing fine strong well hardened true to name pepper plants. See page 35 for varieties and prices.

	Oz.	¼ lb.	lb.
<b>CALIFORNIA WONDER.</b> Large, thick flesh..... A fine sweet pepper with very thick flesh. The fruit is large, smooth and very heavy. Medium early and yields well, a valuable variety.	\$ .50	\$1.50	\$5.00
<b>GIANT CAYENNE (Hot)</b> ..... We have the true stock of this variety.	.50	1.50	5.00
<b>HARRIS' EARLIEST.</b> The Earliest Sweet Pepper. See opposite page.....	.50	1.50	5.00
<b>HARRIS' EARLY GIANT.</b> The Earliest Large Pepper. See above.....	.50	1.50	5.00
<b>HARRIS' IMPROVED SQUASH.</b> See opposite page.....	.50	1.50	5.00
<b>HARRIS' KING OF THE NORTH.</b> See opposite page.....	.60	1.75	6.00
<b>HARRIS' WONDER. (NEW).</b> See opposite page..... ¼ oz. 25c	.75	2.30	8.00
<b>HEIFER HORN (Hot).</b> Private Stock..... One of the largest and best hot peppers. This is a specially selected market gardeners' stock grown on our own farm.	.50	1.50	5.00
<b>HOT PORTUGAL.</b> Large Hot. See above.....	.60	1.75	6.00
<b>HUNGARIAN WAX (Hot).</b> Long Type..... The peppers are 4 to 4½ in. long by 1½ in. at the stem end and pointed. Waxy yellow when young, turning red when ripe. Very hot.	.65	2.00	7.00
<b>Large Red Cherry. (Hot)</b> ..... Fruit nearly round 1 to 1½" in diameter. A heavy bearer but not as early as other hot varieties. Extremely hot.	.45	1.20	4.00
<b>Large Bell or Bull Nose</b> .....	.45	1.20	4.00
<b>OSHKOSH.</b> The Largest and Best Yellow Pepper..... Fruit grows upright. The flesh is thick and exceptionally sweet.	.60	1.75	6.00
<b>Pimiento</b> .....	.30	.90	3.00
<b>Ruby King</b> .....	.30	.90	3.00
<b>WORLDBEATER.</b> True Stock..... This large thick flesh pepper will produce enormous crops in places where the season is fairly long. Our stock is thick fleshed and is fully equal to strains selling at much higher prices.	.45	1.20	4.00
<b>WINDSOR "A." (NEW)</b> Early Thick Meated..... Originated at the Connecticut Experiment Station. A long type resembling Ruby King in shape but with <i>very thick flesh</i> . Very prolific and produces an abundance of ripe fruit early. Peppers about 2½ in. at top and 4½ to 5 in. long.	.65	2.00	7.00

### Kuerbis (Ger.)

### PUMPKINS

### Zucca (It.)

An ounce of seed will plant 20 hills, about 3 lbs. to the acre.

	Oz.	¼ lb.	lb.	10 lb.
<b>CONNECTICUT FIELD, or Big Tom</b> ..... The standard large pumpkin. True stock.	\$ .10	\$ .25	\$ .65	\$ 6.00
<b>Large Cheese</b> .....	.10	.25	.65	6.00
<b>Mammoth Potiron, or King of Mammoths</b> .....	.15	.45	1.50	14.00
<b>ORANGE WINTER LUXURY.</b> Fine for Roadside Sales..... This improved strain has deep orange skin and orange yellow flesh. A very uniform stock. Seed of our own growing.	.12	.35	1.10	10.00
<b>SMALL SUGAR or Pie Pumpkin</b> ..... Small round, deep orange and of excellent quality. Early and prolific. The most popular market variety.	.10	.25	.75	7.00

Radies (Ger.)

# RADISH

Ravanelli (It.)

1/4 lb. of seed will sow about 300 ft. of row.

NOTE. Every package of Harris Seeds is marked with the germination test. To growers who are interested we will be glad to furnish germination figures of our radish seed before they buy their seed.

Cavalier Radish

Note the small tops and fine shape of this typical radish.

## Cavalier

### NEW Short Top Scarlet Globe

Seldom has a new variety met with such instant and general approval as this new radish. Growers everywhere are most enthusiastic over it.

The short tops, deep scarlet color, beautiful shape and extreme uniformity, and ability to stand a long time which makes it possible to pull practically 100% number one radishes, make it the best forcing type we have ever seen.

Leading growers tell us that these radishes sell for the best prices even when the market is slow.

The seed we offer is all grown from carefully selected transplanted roots. See prices below.

#### What Growers think of Cavalier:

"Cavalier Radish has proved to be way ahead of any radish we have ever had. Last fall (1936) from one bed 70 ft. x 150 ft. we pulled 2761 doz. bunches Early Scarlet Globe. This fall we harvested 4162 doz. bunches of Cavalier from the same bed."

November 23, 1937

ALONZO PARR, Irondequoit, N. Y.

"I have used Harris' Cavalier Radish and find it the best for greenhouse use, because it is rapid in growth, has a short top and gives good roots, bright in color and ideal in shape."

November, 1938

HAROLD T. BENNETT, J. S. Crosby Farm, Arlington, Mass.

## Early Scarlet Globe Radish Special Strain

This is the finest strain of regular Early Scarlet Globe both for outdoor and greenhouse growing on the market today.

The radishes are the true olive shape, and of an attractive bright red color. They are early and very uniform in maturity and have tops which though a little taller than Cavalier do not grow too large. The seed is vigorous and of high vitality which is of utmost importance to the greenhouse grower. See prices below.

## Comet (NEW)

### Round, Bright Scarlet—Long Standing

In our trials during the past few years this variety stood longer than any other kind, even attaining a growth of 2" in diameter without becoming soft. It is a very attractive radish, nearly all round, with fine tap roots, brilliant scarlet in color and with medium tops. Growers who desire a round radish both for outdoors and forcing should try this new kind. See prices below.

	1/4 lb.	1 lb.	10 lb.	100 lb.
CAVALIER. (NEW) Short Top Scarlet Globe. See above.....	\$.25	\$.70	\$6.50	\$60.00
COMET. Long Standing. (NEW). See above.....	.30	1.00	9.00	.....
Crimson Giant Globe.....	.25	.70	6.50	60.00
Good commercial stock. Scarlet Champion (described on page 27) is a much better radish of this type.				
Delicacy. (White Globe).....	.25	.80	7.50	.....
A very fine white radish for summer or late fall use. Of globe shape, pure white and of fine quality. One of the best white summer varieties.				
EARLY SCARLET GLOBE. Special Strain. See above.....	.25	.70	6.50	60.00
Early Scarlet Globe.....	.20	.55	5.00	45.00
An excellent stock but not quite as fine as our special strain.				
EARLIEST SCARLET WHITE-TIPPED. Forcing Strain.....	.25	.70	6.50	60.00
The radishes are round, brilliant scarlet with white bottoms. This is the finest strain of white-tipped radish, having small tops and is superior both for forcing and outdoor growing.				

RADISHES continued on next page.

**RADISHES—continued**

	¼ lb.	lb.	10 lb.	100 lb.
<b>FIRECRACKER. (New) Half Long Scarlet</b> .....	\$ .30	\$ .85	\$8.00	\$75.00
Bright scarlet, 2½ to 3" long, solid and crisp. Short top. Does equally well in greenhouse or open ground. Has replaced Long Scarlet Short Top.				
<b>Giant White Stuttgart</b> .....	.25	.80	7.50	....
<b>HARRIS' SPECIAL SCARLET FORCING. (Glowing Ball)</b> .....	.25	.70	6.50	60.00
This is the best short top round forcing radish we know. Very early, perfectly round, short top and a brilliant scarlet color.				
<b>ICICLE or Pearl Forcing. Short-topped Strain. See below</b> .....	.25	.65	6.00	55.00
<b>SCARLET CHAMPION. (New) Large Globe</b> .....	.30	1.00	9.00	....
This is the leading large globe radish for outdoor sowing. The bulbs attain a large size and are firm and mild. The color is a fine deep scarlet.				
<b>WHITE STRASBURG</b> .....	.25	.80	7.50	....

**Icicle Radish (White)**

*Short-Topped Strain—Also Called Pearl Forcing*

This is an ideal stock of Icicle Radish, both for forcing and outdoors and it can also be grown successfully on muck. We have never seen a better stock. The radishes are uniformly smooth and clear white. The tops do not grow too long in the greenhouses or frames, but are plenty long for bunching when grown outdoors. See prices above.

**Winter Radishes**

Sow in August and store in moist sand for winter.

	¼ lb.	lb.	10 lb.
<b>BLACK SPANISH TURNIP</b> .....	\$ .25	\$ .80	\$7.50
Roots are round or turnip shaped and grow very uniform in shape and size. The color is deep black without white streaks.			
<b>Long Black Spanish</b> .....	.25	.80	7.50
Similar to above but with long oval roots, often 8 to 9 in. long by 1½ in. in diameter and a very even stock.			

*Rhabarber (Ger.)*

**RHUBARB or PIE PLANT**

*Rabarbaro (It.)*

One ounce of seed will sow about 100 feet of row.

	¼ lb.	lb.	10 lb.
<b>Myatt's Linnaeus. Early, large stalks</b> .....	\$ .45	\$1.50	\$14.00

**MacDonald Rhubarb Roots**

We have an exceptionally fine lot of roots of the famous MacDonald Rhubarb. This rhubarb is the most distinct improvement made in rhubarb in many years and is conceded to be the best rhubarb ever produced.

The plant is vigorous and strong, producing large tender stalks which are deep crimson in color. They make a very attractive bunch and when cooked the sauce is a beautiful deep pink color and of excellent flavor. Market growers who have been fortunate enough to get these roots in the past find this rhubarb sells readily at the highest prices.

Roots only—Strong divisions. Not prepaid: 10 for \$1.65; 100, \$10.00; 1000, \$85.00. See page 34 for other Rhubarb Roots.

*Sauerampfer (Ger.)*

**SORREL**

*Acetosa (It.)*

One ounce of seed will sow about 250 feet of row.

	¼ lb.	lb.	10 lb.
<b>Improved Broad-Leaved</b> .....	\$ .45	\$1.50	\$14.00
<b>NARROW LEAVED. Special Strain</b> ...	.70	2.25	20.00
This is the variety preferred by most growers.			

**SALSIFY or Vegetable Oyster**

*Haferwurzeln (Ger.)*

*Sassefrica (It.)*

One ounce of seed will sow about 100 feet of row.

	¼ lb.	lb.	10 lb.
<b>MAMMOTH SANDWICH ISLAND</b> ..	\$ .50	\$1.70	\$16.00
The largest and best variety.			

**SWISS CHARD or Spinach Beet**

*Beisskohl (Ger.)*

*Bieta (It.)*

	¼ lb.	lb.	10 lb.
<b>FORDHOOK GIANT. Best for Market</b>	\$ .25	\$ .75	\$7.00
Large dark green well blistered leaves with broad white stem and rib.			
<b>Lucullus. True Light Yellow Strain</b> .....	.25	.70	6.50
<b>Silver Leaf. Smooth dark green leaf, white rib</b> .....	.25	.70	6.50

Fordhook Giant Swiss Chard  
This is the best kind for market.

Spinat (Ger.)

# SPINACH

Spinace (It.)

Sow about 12 to 20 lbs. of seed per acre in rows.

\*NOTE. At the prices here quoted spinach seed cannot be sent prepaid. Purchaser pays transportation on spinach seed except as follows: If your order for vegetable seeds including spinach amounts to \$20.00 or more we will prepay the freight charges.

We shall be glad to quote special prices to growers who use larger amounts of spinach. Please write. 25 lbs. of any one variety will be furnished at the 100 lb. rate.

## Special Summer Savoy—Extra Selected—Long Standing

Special Summer Savoy. These fine plants "bushel" up fast.

This is the most uniform stock of Long Standing Savoy Spinach sold. The leaves are extremely crumpled or "Savoyed," every plant is just alike and have a very attractive dark green color. Growers find the yield per acre to be consistently very heavy.

We are pleased to recommend this extra fine stock without reservation and urge our customers to plant it. We know it is a very profitable variety to grow. See prices below.

Treating your spinach seed with CUPROCID (Red Copper Oxide) will often improve the stand. See page 48

## Viking (NEW)—Early—Large Leaved—Long Standing

This new spinach has proved to be a most excellent kind for spring sowing as it grows very rapidly and thus gets to cutting size early. It will continue to grow for a long time and produce immense plants without going to seed.

The large leaves resemble Nobel Giant Leaved in habit of growth but are darker and more crumpled. Viking will produce extraordinary large crops of fine looking spinach that sells well in markets. See prices below.

## Blight Resistant Savoy—For Fall Sowing

We have an exceptionally fine stock of this variety. It is the true Virginia strain which is practically 100% resistant to blight and can be depended on to produce large crops of fine dark well crumpled spinach in the fall where other varieties blight and fail entirely.

Blight Resistant Savoy does not stand as well as most other kinds in the spring, although our strain will stand three to four days longer than many strains of this variety which are now sold. See prices below.

	NOT PREPAID* (See above)			
	1 lb.	10 lb.	100 lb.	500 lb.
<b>BLIGHT RESISTANT SAVOY-LEAF. For Fall Crop. See above...</b>	\$ .25	\$1.90	\$17.00	\$80.00
<b>KING OF DENMARK. Longest Standing</b> .....	.25	2.00	18.00	85.00
This spinach will stand longer than any other kind. The leaves are very dark green, quite thick and have small stems. On this account and because of the heavy yield this is one of the best varieties for canning. True stock.				
<b>LONG STANDING BLOOMSDALE. For Spring Sowing</b> .....	.25	1.90	17.00	80.00
We have an exceptionally well bred strain. Large deep green, well crumpled leaves which produce enormous crops and stand a long time without bolting to seed. We recommend this stock.				
<b>OLD DOMINION. For Fall Crop</b> .....	.25	1.90	17.00	80.00
This spinach is becoming very popular for spring sowing in places where blight affects spinach and also for early fall sowing as it is blight resistant and will stand longer without going to seed than Blight Resistant Savoy. The leaves are large, dark green, well blistered or "Savoyed" producing large crops which stand up well when shipped.				
<b>NEW ZEALAND. Not a true spinach. Valuable for summer</b> .....	.40	3.75	35.00	....
<b>NOBEL GIANT-LEAVED</b> .....	.25	2.00	18.00	85.00
Large, early, medium dark nearly smooth leaves. Grows rapidly and is ready to cut early. Remarkably long standing. An excellent and profitable kind for spring sowing where large volume is wanted.				
<b>PRINCESS JULIANA</b> .....	.25	1.90	17.00	80.00
Grown chiefly because of its well crumpled, remarkably thick leaves, but will not produce as large crops as some of the more popular varieties.				
<b>SPECIAL SUMMER SAVOY. See above</b> .....	.25	1.90	17.00	80.00
<b>VIKING. (New) Large Leaved—Long Standing. See above</b> .....	.25	2.00	18.00	85.00

*Kuerbiss (Ger.)*

**SUMMER SQUASH**

*Zucca (It.)*

*1/4 lb. of seed will plant about 100 hills; 5 to 6 lbs. of seed Per acre.*

**Early Yellow Prolific**  
**A New Summer Squash of**  
**Great Merit**

We consider this one of the outstanding triumphs of plant breeding in recent years. These are straightneck squash, not as large as the Giant varieties, but they are borne in great profusion on the dwarf vines. They are remarkable for their smooth skin and clear bright yellow color, having no trace of green even when very young.

Growers who had this last year were greatly pleased with their crops. If you have not grown it be sure to do so. See price below.

Early Yellow Prolific Summer Squash

**BE SURE YOUR NAME AND ADDRESS IS ON THE ORDER SHEET**

	Oz.	1/4 lb.	lb.	10 lb.
<b>Early Giant Crookneck</b> .....	\$ .15	\$ .35	\$1.10	\$10.00
<i>Larger than the old Bush Crookneck and equally early. True strain.</i>				
<b>Early Yellow Bush Scallop</b> .....	.15	.35	1.10	10.00
<i>Similar to the white, except in color.</i>				
<b>GIANT SUMMER STRAIGHTNECK. Clear Bright Yellow</b> .....	.15	.40	1.25	11.50
<i>This is our original strain of Straightneck which has been so popular among gardeners because of the very large per cent of straight fruit, with thick meaty necks of the desired type. The color is a bright clear yellow. Growers find that this is the most uniform strain they can buy.</i>				
<b>GIANT SUMMER STRAIGHTNECK. Butter Yellow. See below</b> ...	.15	.40	1.25	11.50
<b>EARLY PROLIFIC. (New) See above</b> .....	.20	.60	2.00	17.50
<b>ITALIAN VEGETABLE MARROW (Cocozelle)</b> .....	.15	.40	1.25	11.50
<i>Long mottled green fruit of high quality. We have a fine stock which will produce dark green squash of uniformly good length. Bush vines.</i>				
<b>MAMMOTH WHITE BUSH SCALLOP. Also called "Cymling"</b> ...	.15	.35	1.10	10.00
<i>The popular type, producing large yields of thick creamy white, well scalloped fruit. Bush vines.</i>				
<b>Vegetable Marrow (English) White</b> .....	.15	.40	1.25	11.50
<i>The fruit is 8 in. to a foot long, 4 to 5 in. in diameter and creamy white. Running vines.</i>				
<b>DARK GREEN ZUCCHINI. Special Long Strain</b> .....	.20	.60	2.00	17.50
<i>This is a very superior strain with uniformly long dark green fruit, entirely without light grey fruit or light stripes. The young fruits are long and dark green. Exactly what is wanted.</i>				

**Giant Summer Straightneck—Butter Yellow**

Seed Field of Straightneck Squash on Moreton Farm

Market gardeners whose demand is for summer squash of butter yellow color will find this new strain ideally suited to their needs. It is early and very prolific and the fruits are quite smooth and entirely yellow even in the young stage.

This type of Straightneck has been popular with many New England market gardeners. We have grown a crop of seed this year on our own farm, and can recommend it. See price above.

*"We have always found your seeds very satisfactory in every way and thank you very much for your prompt shipments."*  
*Clarence A. Knapp, Stanfordsville, N. Y.*  
*Mar. 4, 1938.*

**WINTER SQUASH. See next page.**

*Kuerbiss (Ger.)*

**WINTER SQUASH**

*Zucca (It.)*

¼ lb. of seed will plant 50 hills; 3 to 4 lbs. of seed per acre.

Blue Hubbard Squash. *Large and Heavy.*

**Blue Hubbard  
Harris' Selected Strain**

This stock is the result of years of close breeding and is considered the finest, purest stock grown. It can be relied on to produce immense yields of large true type squash. Our seed is all of our own growing here on our farms.

Although originally this was strictly a New England variety, the fine quality, enormous yields and excellent keeping ability have made this a most popular variety throughout the East.

Ours is the large, rugged strain that produces enormous crops. There is always a good market for Harris' Blue Hubbard. See prices below.

**Warren Squash—Improved Essex Hybrid (New England Strain)**

This fine old New England squash has become popular in many sections which formerly would not use "orange" squash. In sections where this type is grown our stock has proved more than satisfactory.

The squash are early, medium size, very uniform in shape and heavily warted. The vines produce large crops. We have bred this strain with a well formed but not too prominent "button." The flesh is fine grained, extra thick and the color a beautiful deep orange red. **Seed of our own growing.** See prices below.

	Oz.	¼ lb.	1 lb.	10 lb.
<b>BLUE HUBBARD. Selected Strain.</b> See above.....	\$ .20	\$ .60	\$2.00	\$17.50
<b>Boston Marrow</b> .....	.10	.25	.80	7.50
Popular fall squash, deep orange color. Used principally for canning and pies.				
<b>BUTTERCUP. (New)</b> .....	.25	.70	2.25	20.00
This new small squash has exceptionally thick flesh and fine quality and no doubt will be very popular for roadside stands. See full description in our Retail Catalogue.				
<b>DELICIOUS</b> .....	.15	.40	1.35	12.50
Smaller than Hubbard, but of finer quality, deeper green shell with orange flesh. Dry and sweet.				
<b>GOLDEN DELICIOUS</b> .....	.15	.40	1.25	11.50
An excellent small yellow squash for roadside and market. Superb quality.				
<b>Golden Hubbard</b> .....	.15	.35	1.10	10.00
The same shape as Hubbard but with deep orange yellow skin.				
<b>HUBBARD—True</b> .....	.15	.35	1.10	10.00
Dark green smooth skin, fruit of high quality. We have a fine true strain.				
<b>IMPROVED WARTED HUBBARD. (Dark Green)</b> .....	.15	.40	1.25	11.50
Larger, more warted and darker green than the true Hubbard squash. A true stock that will produce large crops.				
<b>QUALITY. The richest small squash</b> .....	.25	.70	2.25	20.00
An unexcelled small squash for roadside and market. Dark green, 7 to 9 in. in diameter, heart shape. Flesh is exceptionally dry and sweet. Seed of our own growing.				
<b>TABLE QUEEN (The Individual Squash). Also called Des Moines, Acorn and Queen Ann</b> .....	.15	.40	1.25	11.50
Small dark green fruit 5 to 6 in. long. 4½ in. in diameter, deeply ribbed and very hard. We have a fine <i>true</i> stock of this popular variety.				
<b>WARREN. Improved Essex Hybrid.</b> See above.....	.20	.60	2.00	17.50

**Harris' Tomato Plants**

We have a reputation for producing fine, sturdy, true to name tomato plants and this year have enlarged and improved our equipment so that our customers will get better service than ever before. They can be furnished either ready to set out in the open ground, or, if preferred, small plants which can be grown in frames for a few weeks before setting out. *See page 35 for prices and varieties.*

Tomate (Ger.)

## TOMATOES

Pomo d'oro (It.)

*An ounce of seed will produce about 2000 plants.*

### Harris' New York State Certified Tomato Seed

New York State Certified Tomato seed must meet the highest standards of purity and freedom from disease. For the fourth successive year we are pleased to offer New York State Certified Tomato seed.

Most of the tomato seed sold today is a by-product from fruit which has been processed in canning factories for the juice. Our Certified Tomato Seed is all grown on our own farms *for seed only*, and in comparatively small fields which have our careful individual attention.

Representatives of the New York State Seed Improvement Association inspecting our field of Certified Rutgers Tomatoes.  
*This is another view of the field shown on the back cover.*

### New Rutgers Tomato—Harris' Early Strain

*See photo of our 1938 seed crop on the Back Cover*

"The best picking of the best crop of the best tomatoes I've ever seen." That's what our field boss said when he went into our field of Rutgers this summer. All who saw this crop marvelled at the enormous yield of fine large fruit on the strong sturdy vines.

This new tomato certainly deserves the great popularity it has attained since its introduction by Prof. Schermerhorn of the New Jersey Agriculture Experiment Station.

The outstanding features of the Rutgers tomato are the large size and solid structure of the fruit, deep globe shape, fine flavor and deep red color all over together with a heavy set of fruit which makes for high yield.

Altho this is a main crop tomato we have reselected it for earliness, producing a strain which is only a little later than Scarlet Topper, without losing any of its other fine characters. Our seed crop this year ripened 100% of the fruit. The vines are strong and sturdy with plenty of leaves to prevent the fruit being scalded by the sun.

**N. Y. State Certified Seed** of our own growing. See prices on next page.

### NYSTATE (New)—Early, Thick Meated, Heavy Cropper

Since its introduction in 1936, by the New York State Agriculture Experiment Station, this tomato has become recognized as a most excellent kind for market.

The fruit is very attractive in appearance, being of a slightly flattened globe shape, very smooth, resistant to cracking and an excellent deep red color which extends all through the fruit. The flesh is solid and of outstanding fine flavor, being very mild and sweet. NYSTATE ripens about the same time as John Baer and is an extremely heavy producer. You will do well to try some NYSTATE.

**N. Y. State Certified Seed** of our own growing. See prices on next page.

### Marglobe Tomato—Blight Resistant

We have grown this variety on our own farm since it was first released by the U. S. Department of Agriculture and have made careful selections each year to improve the yield, uniformity of color, size and shape of fruit.

The fruit is large, globe shaped, perfectly smooth, deep red, very solid and firm. The vines are vigorous and healthy and do not blight. They remain green until frost, so the late fruit is as good as the first to ripen.

**N. Y. State Certified Seed** of our own growing. See prices on next page.

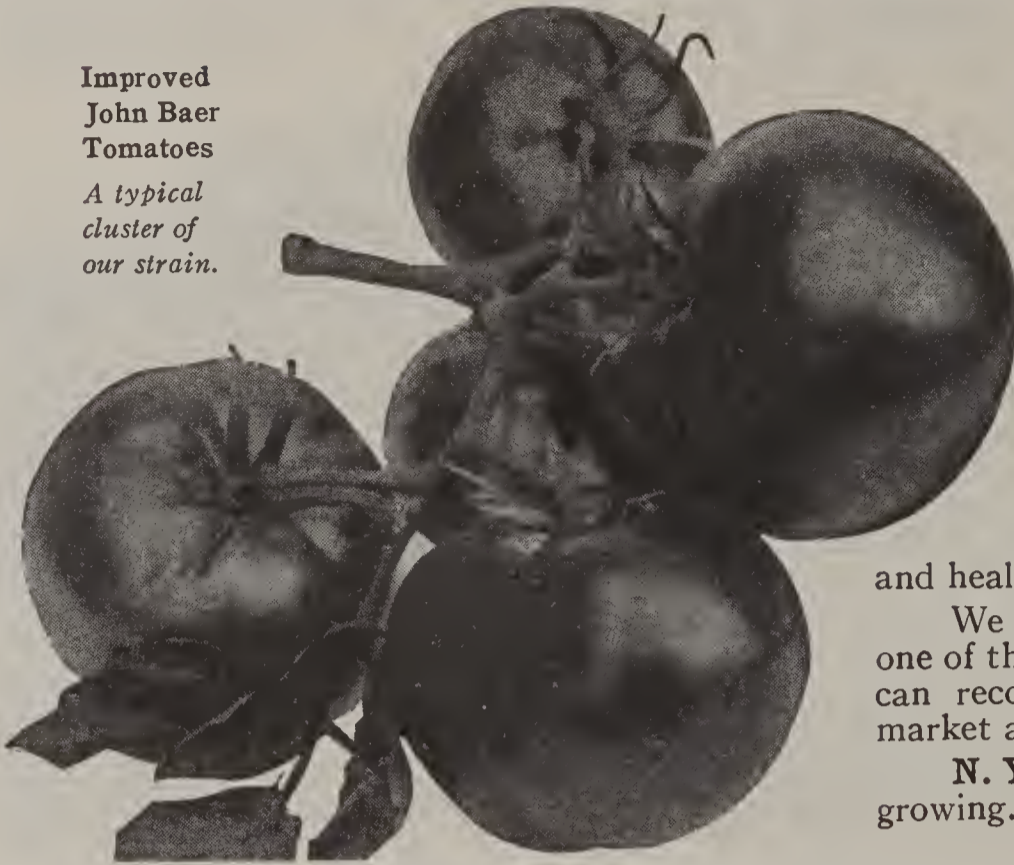

### N. Y. Certified Comet—For Greenhouse and Trellis Growing

Some of the largest growers of tomatoes in greenhouses and on trellises use Harris' Comet tomatoes exclusively. We are pleased to offer **N. Y. State Certified Seed** of this fine strain of Comet Tomato. The seed is saved only from the best fruit and has been found superior for both greenhouse use and growing outside on supports. Pkt. 20c;  $\frac{1}{8}$  oz. 50c;  $\frac{1}{2}$  oz. \$1.65; oz. \$3.00;  $\frac{1}{4}$  lb. \$10.00.

**TOMATOES continued on next page.**

Improved  
John Baer  
Tomatoes

A typical  
cluster of  
our strain.

**John Baer  
(Improved Strain)**

*The Best Tomato in Its Class*

This is the Geneva strain of John Baer tomato and will produce larger fruit and more tons of fine tomatoes to the acre than any stock we have ever seen.

The fruit is unusually large for this variety and is very smooth. It is deep red throughout and colors right up to the stem. The vines are vigorous and healthy and produce heavy crops.

We regard this Improved John Baer as one of the best medium early tomatoes, and can recommend it most highly both for market and canning.

N. Y. State Certified Seed of our own growing. See prices below.

	Oz.	¼ lb.	lb.
<b>BONNY BEST. Harris' Special Strain.</b> (N.Y. Certified Seed) . . . . . 5 lbs. \$20.00	\$ .50	\$1.35	\$4.50
We know of no finer strain. Grown on our own farm from our own pedigree stock seed. Produces smooth round perfect fruit of finest color.			
<b>BREAK O'DAY.</b> (N.Y. Certified Seed) . . . . .	.50	1.35	4.50
The fruit is very early, globe shaped, smooth and solid. This tomato is valuable where plants are staked and early fruit of high quality is required.			
<b>CANADIAN. Extra Early.</b> (N.Y. Certified Seed) . . . . .	.50	1.50	5.00
A robust Earliana type tomato, practically as early as our Special Strain. Fruit deep red color and large. Seed of our own growing.			
<b>COMET. Forcing Tomato.</b> (N.Y. Certified Seed). <i>See prices on page 31</i> . . . . .	...	...	...
<b>Dwarf Champion.</b> . . . . .	.50	1.30	4.25
Early, pink, medium size, dwarf stocky plant.			
<b>Dwarf Stone.</b> . . . . .	.50	1.35	4.50
Plants like Dwarf Champion with fruit like Stone.			
<b>EARLIANA. Harris' Extra Early Strain.</b> (N.Y. Certified Seed) . . . . .	.50	1.50	5.00
Our stock is famous for extremely early, extra smooth fine colored fruit. Other tomatoes under various names are said to be earlier, but few are and these very irregular in shape and poor for market.			
<b>EARLY DETROIT. The Best Early Pink Tomato.</b> . . . . .	.50	1.30	4.25
A very fine pink variety with smooth, evenly colored fruit of good size.			
<b>GLOBE. Special Selected (Pink)</b> . . . . . 5 lbs. \$22.50	.50	1.50	5.00
Seed of our own growing and as fine a stock of this popular kind as we have ever seen.			
<b>GOLDEN QUEEN.</b> . . . . .	.50	1.45	4.75
Large, smooth yellow fruit.			
<b>HARRIS' EARLY STONE.</b> (N.Y. Certified Seed) . . . . . 5 lbs. \$18.50	.50	1.30	4.25
Produces large, solid deep red fruit, superb quality. Early selected strain, ripens nearly as early as Bonny Best and John Baer. Enormous cropper.			
<b>HARRIS' SUCCESS.</b> . . . . . 5 lbs. \$18.50	.50	1.30	4.25
Yields enormous crops of smooth solid fine flavor fruit. Nearly as early as John Baer.			
<b>ITALIAN RED PEAR. Pomo d'oro a Pero.</b> (N.Y. Certified Seed) . . . . . Pkt. 10c	.50	1.50	5.00
Three to four times as large as ordinary Red Pear. Clusters of 4 to 7 fruit with pleasant distinct flavor. Used largely for Tomato "paste" and canning "Italian Style."			
<b>JOHN BAER. Improved Strain.</b> (N.Y. Certified Seed). <i>See above.</i> . . . 5 lbs. \$20.00	.50	1.35	4.50
<b>MARGLOBE. Blight Resistant.</b> (N.Y. Certified Seed). <i>See page 31.</i> . . . 5 lbs. \$22.50	.50	1.50	5.00
<b>NYSTATE (NEW).</b> (N.Y. Certified Seed). <i>See page 31.</i> . . . . . 5 lbs. \$22.50	.50	1.50	5.00
<b>PONDEROSA. Largest Pink Kind.</b> . . . . .	.55	1.60	5.50
Magnificent, heavy, solid fruit, often weighing 2 lbs. or more; light pink; medium late; does not color very well and is somewhat irregular.			
<b>PRITCHARD'S SCARLET TOPPER.</b> (N.Y. Certified Seed) . . . . . 5 lbs. \$22.50	.50	1.50	5.00
Brilliant scarlet globe fruit, solid and of extremely fine quality. A heavy yielder, ripens right after Bonny Best. We think this is one of the best tomatoes grown.			
<b>REDCAP. New.</b> . . . . .	.50	1.50	5.00
Developed by the New York State Agricultural Experiment Station at Geneva. Prolific and early, with solid fruit of remarkably fine color and superb quality.			
<b>RUTGERS (New).</b> (N.Y. Certified Seed). <i>See page 31.</i> . . . . . 5 lbs. \$27.50	.60	1.75	6.00

**Small Fruited Tomatoes**

These little tomatoes are popular to use in pickles, salads and preserves.

Varieties: Red Cherry, Red Pear, Red Plum, Red Currant, Yellow Cherry, Yellow Pear, Yellow Plum, and Ground Cherry (Husk).

Price: Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50. Any four Pkts. 25c. Any four ½ oz. \$1.00.

## TURNIPS

*Weisse Rube (Ger.) Navone (It.)*  
*It requires 1 to 1½ lbs. of seed per acre in drills, or 2 to 2½ lbs. broadcast.*

### Purple Top White Globe Special Strain

This stock of Purple Top White Globe turnip continues to produce the smoothest, handsomest turnips we have ever seen. The turnips are a snowy white with bright purple tops. Such turnips make a much more attractive appearance and always sell at advanced prices over ordinary stocks. See price below.

*"Dealing with the Harris Seed Co. I could always rely on their word. If my memory doesn't deceive me I started buying your seeds 30 years or more ago. I always found them true to name and of strong germination which produced good crops of the finest vegetables." Otto G. Newman, Chepachet, R. I. Mar. 8, 1938.*

Harris' Purple Top White Globe Turnips

*These smooth, attractive turnips bring top prices.*

	¼ lb.	lb.	10 lb.
<b>EARLY PURPLE TOP MILAN</b> .....	\$ .30	\$ .85	\$8.00
<i>The earliest purple top turnip, very fine. Flat.</i>			
<b>EARLY WHITE MILAN. The Earliest Turnip</b> .....	.30	.85	8.00
<i>Very early, flat white turnip.</i>			
<b>GOLDEN BALL. The Smoothest Yellow Turnip</b> .....	.25	.75	7.00
<i>Round, smooth yellow. Much the best to grow where a yellow turnip is wanted.</i>			
<b>PURPLE TOP WHITE GLOBE. Special Strain. See above</b> .....	.25	.70	6.50
<b>SHOGOIN. The Best Foliage Variety</b> .....	.25	.80	7.50
<i>The best turnip for greens, very much superior to Seven Top. The turnips are white, flat and of fine quality. The tops are light green of good quality and grow in clusters.</i>			
<b>Snowball</b> .....	.25	.70	6.50
<i>Pure white, round as a ball; early, with small tops.</i>			

*Kohlrübe (Ger.) RUTA BAGAS or Swede Turnips Cavolo navone (It.)*

### Improved Long Island Special Neckless Strain

We have compared this stock with the finest Canadian varieties and find it superior to any we have yet seen.

The roots are large and handsome producing enormous crops. They are globe shape and much smoother than the usual strains. There are practically no necks. Flesh is yellow and of fine quality. These ruta bagas command the best prices.

¼ lb. 30c; lb. 85c; 10 lbs. \$8.00.

### Macomber Finest Quality—White Flesh

This ruta бага should be grown more extensively. It is the finest quality ruta бага we know, being exceptionally mild and sweet. The roots are nearly round smooth, white with green tops. The flesh is white and very fine grained. Growers to a discriminating trade quickly work up a fine trade with this outstanding variety.

¼ lb. 60c; lb. \$2.00; 10 lbs. \$19.00.

Improved Long Island Ruta Bagas

### Early Yellow Purple Top—Famous Bucks County Strain

A fine strain of Purple Top Yellow ruta bagas maturing about two weeks earlier than Long Island Improved. The roots are somewhat smaller and slightly flatter than that variety and are very uniform for shape and color. The flesh is light yellow, fine grained and sweet. We recommend this variety particularly for the early market. ¼ lb. 40c; lb. \$1.30; 10 lbs. \$12.00.

<b>CACO. (New). (Red)</b> ..... A cross between Concord and Catawba. Large berries and early.	\$2.50	\$22.50
<b>Concord. (Black)</b> ..... The old standard black grape.	1.00	8.00
<b>Delaware. (Red)</b> ..... The most popular red grape. Known and appreciated everywhere.	1.60	14.00
<b>FREDONIA. (New). (Black)</b> ..... Originated and tested by the New York Agricultural Experimental Station. Very early, large, handsome and of excellent quality. Vigorous and productive.	2.50	22.50
<b>Niagara. (White)</b> ..... The standard white grape.	1.15	10.00
<b>PORTLAND. (New). (White)</b> ..... The earliest grape, and one of the finest for quality, vigor and yield.	2.50	22.50
<b>Worden. (Black)</b> ..... Earlier than Concord. Large black berries of fine quality.	1.45	12.00

## Certified Seed Potatoes

**About Shipping.** The potatoes are shipped in sacks holding 120 pounds (2 bu.). We can usually ship safely by the 25th of March, but not before, except to the Southern States.

**Prices Subject to Change.** The prices of potatoes are subject to market changes and to our acceptance on receipt of order. We will be pleased to quote lowest prices by letter. Please state the kinds and amounts you are interested in.

NOTE—We now ship potatoes in sacks containing 2 bushels.

	NOT PREPAID	
	Single Bu.	Sack 2 Bu.
<b>GOLDEN RURAL or RURAL RUSSET. Certified Seed</b> ..... One of the very best potatoes, almost blight-proof, vines very strong and vigorous and produce immense yields of handsome round, white potatoes. We think larger crops can be raised with this variety than any other kind.	\$2.65	\$5.10
<b>GREEN MOUNTAIN. Certified Seed</b> .....	2.75	5.30
<b>HEAVY WEIGHT or Smooth Rural. Certified Seed</b> ..... One of the heaviest yielding late potatoes we know of. Round, white, medium shallow eyes, vines very strong and free from disease.	2.65	5.10
<b>IRISH COBBLER. Early. Certified Seed</b> ..... The most popular round white early potato.	2.75	5.30
<b>WARBA (New). Certified Seed</b> ..... Attractive round tubers, white skin, light pink eyes. Extra early maturity makes this a superior variety. Does best on muck soil or well fertilized light upland.	2.90	5.60

## HARRIS' FARM AND FIELD SEEDS

NOTE. All prices of the following farm and field and grass seeds quoted on these pages are subject to change without notice and to our stocks being unsold. *Let us know your requirements and we will be pleased to quote you lowest prices at any time.*

The prices here quoted are for cash with order and for seeds delivered f. o. b. Coldwater, N. Y., only. *Purchaser pays transportation on all farm, field and grass seed. We do not charge for bags.*

We handle farm and field seeds of the highest quality only. See our General Catalogue for full descriptions.

See our General Catalogue for complete descriptions of these and other fine lawn grass mixtures.

# FLOWER SEEDS

Peerless Pink Aster

Harris' New Early Dawn Aster

## HARRIS' ASTERS—*New Wilt-Resistant Varieties*

You, as a commercial grower cannot afford to gamble unnecessarily. Sow only "Wilt-Resistant Asters" and eliminate the risk of "wilt" or "stem rot."

If you are growing for cut-flowers we particularly recommend *Harris New Early Dawn*, *New Early Giant*, *Crego Enchantress Pink*, *Peerless Pink*, *Pompon Asters*, *American Branching Azure Blue*, and *White*.

For a spring plant trade we find the best sellers are *Peerless Pink*, *Heart of France*, *American Branching White*, *Azure Blue*, *Rose* and *Purple*. Some trade also demands *Crego Asters* in which case we recommend sowing *Crego Azure Blue*, *Enchantress Pink* and *White*.

**Growing Asters for Cut-flowers.** We do not find it always necessary to transplant Asters. If sown in the field in April and the seedlings eliminated to 10 to 15 inches apart, they will do as well, and, oftentimes better than if transplanted. Sowing in this way takes 1 oz. of seed for about 700 feet of row. To sow for transplanting use 4 ozs. to plant 1 acre or 1 oz. to plant 3500 feet of row in the field.

**For Plant Trade.** We suggest for your boxes of mixed Asters that you sow separate colors and mix the seedlings as they are being transplanted. Then you can guarantee your mixture and have some in separate colors.

### American Branching Asters

The leading mid-season variety for all purposes.

W1604—Azure Blue.....	Lg.		
W1606—Crimson.....	Pkt.	¼ Oz.	Oz.
W1602—Flesh Pink.....			
W1607—Peach Blossom.....	\$	.25	\$ .60 \$2.00
W1605—Purple.....			
W1603—Rose.....			
W1601—White.....			
W1600—Variety Mixture.....		.15	.45 1.50

### Harris' 8-Best Mixture

W1500—Our own special mixture made from equal quantities of the following eight best Wilt-Resistant Asters: *New Early Giant* Light Blue, *New Early Giant* Peach Blossom, *American Branching Purple*, *American Branching White*, *New Enchantress Pink* *Crego*, *Peerless Pink*, *Heart of France*, and *Deep Rose Crego*.

Particularly good for plant trade or garden. Lg. Pkt. 15c; ¼ Oz. 85c; Oz. \$2.50.

### All Kinds Mixed

W1000—Choice Mixture of Tall Varieties. This is an especially made mixture of taller growing kinds including *Royal*, *American Branching*, *Crego*, and *Early American Beauty*. Lg. Pkt. 15c; ¼ Oz. 45c; Oz. \$1.50.

### Crego Asters

Ostrich Feather Asters. An unusual range of colors selected from the best of the fluffy or *Crego* type.

W1402—Shell Pink.....	Lg.		
W1404—Azure Blue.....	Pkt.	¼ Oz.	Oz.
W1405—Purple.....	\$	.25	\$ .60 \$2.00

W1400—Variety Mixture.....		.15	.45 1.50

### Royal Asters

Same form as *American Branching* but slightly earlier.

W1301—White.....	Lg.		
W1303—Rose.....	Pkt.	¼ Oz.	Oz.
W1304—Lavender.....	\$	.25	\$ .60 \$2.00
W1305—Purple.....			
W1300—Variety Mixture.....		.15	.45 1.50

### Peerless Pink Aster

W1066—This is still the most profitable light pink Aster. Large double flowers on vigorous branching plants. Lg. Pkt. 25c; ¼ Oz. 60c; Oz. \$2.00.

### Heart of France Aster

W1078—The most popular "red" Aster and still a favorite for the gardens. There is no other Aster to take its place. Lg. Pkt. 35c; ¼ Oz. 80c; Oz. \$3.00.

### New Early Giant Asters

A much earlier, and wilt-resistant strain of the immense *California Giant Asters*.

W1824—Light Blue.....	⅙ Oz.	¼ Oz.	Oz.
W1823—Peach Blossom.....	\$	.75	\$2.00 \$6.25

## ASTERS—Continued

Although the following Asters are not listed as "Wilt-Resistant" they are particularly good growers and are not troubled by wilt unless growing in badly infected soil.

### Harris' Early Dawn Asters

Good stems can be obtained by heavy feeding. A new class of extra early Asters of our own growing. They bloom so early that, with us, they are not affected by the tarnished plant bug or diseases. We grow them from seed without transplanting.

Better and earlier than Queen of the Market.

	Lg. Pkt.	¼ Oz.	Oz.
W1254—Lavender.....	}	\$.25	\$.90
W1253—Rose.....			
W1251—White.....			
W1250—Variety Mixture.....			

### New Daisy Asters

W1830—California Giant Single, Mixed Colors. Immense single flowers with long graceful petals. Plants are the vigorous California Giant type and are very resistant to disease. Lg. Pkt. 15c; ¼ Oz. 40c; Oz. \$1.25.

### California Giant Asters

A new strain of remarkable Asters on immense robust plants. The flowers have long twisted petals and are colossal in size.

W1815—Dark Purple.....	}	\$	.35	\$.85	\$3.00
W1812—Deep Rose.....

W1813—Peach Blossom.....					
W1816—Shell Pink.....					
W1811—White.....					
W1810—Variety Mixture.....			.25	.70	2.40

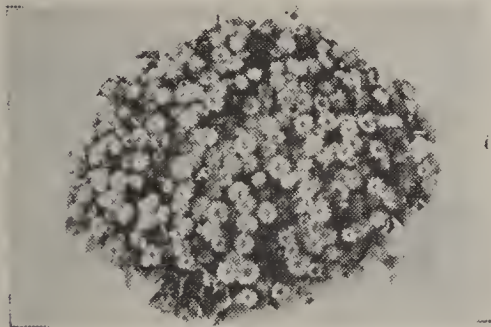

### New Pompon Asters

W1100—A new type rapidly gaining popularity for cutting. Upright growing plants with an abundance of small tightly doubled flowers that last for a long time. Mixed Colors. Lg. Pkt. 35c; ¼ Oz. \$1.25; Oz. \$4.00.

### Sunshine Asters

W1010—New California Sunshine Mixed Colors. A new upright growing Aster with large single flowers, many of them with quilled centers. Lg. Pkt. 35c; ¼ Oz. \$1.75; Oz. \$5.00.

## GENERAL LIST OF ANNUAL FLOWERS

Ageratum, Little Blue Star

### Ageratum

Probably few other flowers are as diversified in their uses. The new variety Blue Ball is an excellent kind to either pot for spring trade, or to sow in November or December for Easter trade. Little Blue Star is a most satisfactory dwarf edging variety to use for bedding plant trade, while Swanley Blue, being taller, makes a valuable cut-flower.

	Lg. Pkt.	¼ Oz.	Oz.
W2015—Swanley Blue.....	\$.15	\$.25	\$.75
W2011—Little Blue Star.....	.25	.90	3.00
W2014—Blue Ball.....	.15	.45	1.50

W2475—Orange Flare.....	.15	.25	.80

## FOR SUMMER SOWING

### English Daisies

W2140—Bellis Perennis. Double Mixed Colors. Lg. Pkt. 15c; ¼ Oz. 45c; Oz. \$1.50.

### Forget-me-nots or Myosotis

W3493—Royal Blue. By far the best variety for spring basket trade. Rich indigo blue color. You will find this superior strain ideal in habit and of good germination. Lg. Pkt. 25c; ¼ Oz. 85c; Oz. \$3.00.

	Lg. Pkt.	¼ Oz.	Oz.
W3492—Rose.....	\$.15	\$.25	\$.90
W3490—Mixed.....	.15	.20	.75
W3495—Palustris Semperflorens...	.15	.35	1.25

Forget-Me-Not or Myosotis

Chrysantha Calendula

Gypsophila, London Market

### Calendula

Although Calendula has long been a favorite for indoor culture, many growers have been discouraged from trying to use them as an outdoor cut-flower. For those who have not been getting good blooms during the summer, we recommend sowing later (June 20th to July 1st). They will start flowering the last of August and continue throughout September and October. You will find the flowers comparing favorably with greenhouse grown stock in size and length of stem.

	¼ Oz.	Oz.	¼ Lb.	
W2201—Orange King.....	} \$ .15	\$ .30	\$ .90	
W2202—Lemon Queen.....

W2340—IMPERIALIS, Mixed Colors.....	.15	.45	1.35
	.20	.60	...

### Coleus

There has always been a demand for a strain of Coleus seed which would produce bright colors with the fewest dark foliated plants. Bright-colored plants are more profitable to grow from seed rather than from cuttings. In our Extra Fancy Mixture we have developed a strain which is unquestionably the brightest-colored Coleus mixture ever grown. The plants are uniformly fairly dwarf, compact and large-leaved.

W2511—Extra Fancy Leaved Mixture. 500 seeds 95c; 1000 seeds \$1.50; ¼ Oz. \$3.50.

### Dahlia

Unwins Hybrids may be brought into flower in flats or pots for spring plant sales. They produce single and semi-double flowers in a riot of color. Plants sell readily.

	⅙ Oz.	¼ Oz.
W2606—Unwin's Dwarf Hybrids.....	\$ .25	\$ .75
W2607—Extra Choice Double.....	1.00	3.50

### Dracaena

W2750—Indivisa. Popular for porch boxes, vases, etc. The seed should be rubbed out of the hulls before sowing. Oz. 45c; ¼ Lb. \$1.25; Lb. \$4.00.

### Gypsophila or Baby's Breath Florist's Selected Strain

This may be flowered in flats in the greenhouse during the late winter and early spring. Whether sown inside or outdoors it is well to make sowings at about two week intervals to produce a continuous cutting.

W2992—London Market. The largest flowered and decidedly the most satisfactory for the florist. Oz. 15c; ¼ Lb. 35c; Lb. \$1.15.

### Gourds

	¼ Oz.	Oz.
W2985—Small Sorts Mixed.....	\$ .15	\$ .45
W2989—Large Sorts Mixed.....	.15	.45

### Heliotrope

W3133—New Giant Blue. One of the best plants for spring sales. Lg. Pkt. 25c; ¼ Oz. 60c; Oz. \$2.00.

### Helichrysum

	Lg. Pkt.	¼ Oz.	Oz.
W3070—Mixed Colors.....	\$ .15	\$ .25	\$ .80

W3477—Scarlett O'Hara. The All-American Gold Medal winner for 1939. Immense deep scarlet. Retail packet 25c; ¼ Oz. \$1.10; Oz. \$3.75.

W3478—Crimson Rambler. Free-flowering medium-sized, rapid climbing, crimson-red. ¼ Oz. 30c; Oz. \$1.00.

### Nicotiana

	Lg. Pkt.	¼ Oz.	Oz.
W3671—Affinis, White.....	\$ .15	\$ .20	\$ .60
W3670—Affinis, Mixed Colors.....	.15	.25	.70

Plant of Harris' Extra Fancy-Leaved Coleus after growing all summer.

# Larkspur

The finest Larkspur for outdoor cutting is probably produced by sowing seed outdoors the middle of August. However, sowings may, in some cases, be made as late as October. Plants will usually withstand the winter in this latitude without any mulch. If a mulch is used, it should be coarse so as not to mat down on the plants. Very early spring sowing is also satisfactory. Besides being one of the best outdoor cut-flowers, Larkspur is grown extensively in the greenhouse. The Giant Imperial, or base branching types, are preferred for cutting. All of our Larkspur, with the exception of Rosamond, are of this type.

- W3243—Rosamond, Deep rose
  - W3248—Los Angeles Improved. Salmon rose
  - W3254—Blue Bell. Mid blue
  - W3255—Adorable. Lilac lavender
  - W3256—White King. Large white
  - W3258—Blue Spire. Deep violet blue
  - W3253—Dazzler. Rich scarlet
- Any of the above colors: Lg. Pkt. 15c; ¼ Oz. 30c; Oz. \$1.00; ¼ Lb. \$3.00.
- W3250—Variety Mixture. Our own mixture of the above named seven best kinds. Lg. Pkt. 15c; ¼ Oz. 25c; Oz. 75c; ¼ Lb. \$2.25.

Golden West Marigold

# Marigolds

The Marigold fulfils the florist's desire for a flower which, at a minimum of cost, adapts itself to almost every use. They are being used more extensively each year for colorful spring combination pots by making January and February sowings. Harmony is the best for this purpose. It is a two-tone double flower on a dwarf early flowering plant. For taller work we suggest the odorless Crown of Gold. For growing under cloth, on a greenhouse bench, or out-of-doors, Yellow Supreme and odorless Burpee Gold are the most popular. These can be followed up by the larger African varieties. We urge you to try out new extra early Viking Marigolds. Of course, all varieties sell well to the plant trade.

## TALL MARIGOLDS

### Carnation-flowered Marigolds

Large wide-petalled flowers, very attractive and popular for cutting.

	Lg. Pkt.	¼ Oz.	Oz.
W3426—Yellow Supreme	\$ .15	\$ .35	\$ 1.25
W3427—Golden West (Improved Guinea Gold)	.15	.45	1.50

# Petunias

Petunias are probably the most widely used flower in America today. We believe that our list is so carefully selected from our own plantings that it will give you the best varieties for all uses. We have also attempted to group them in order to eliminate confusion.

## Giant Ruffled Petunias

### Harris' Paramount Ruffled Giants

Bright Colors—Low Plants

#### W3802—Paramount Giants, Mixed Colors.

An extra fine strain of our own growing especially selected for florists' use. The immense deep-throated well ruffled flowers are on low-growing compact plants that do not run up tall during the summer. They start flowering when the plants are very small, making them exceptionally good for spring sales. The colors are selected for brightness and include a large percentage of red and white blotched. 200 seeds 30c; 500 seeds 60c; 1000 seeds \$1.00;  $\frac{1}{64}$  Oz. (about 2500 seeds) \$2.00;  $\frac{1}{32}$  Oz. \$3.50;  $\frac{1}{8}$  Oz. \$12.00.

W3801—Ruffled Giants of California. Not as dwarf in habit, but bearing ruffled flowers of a splendid color range in Giant Petunias. 200 seeds 20c; 500 seeds 30c; 1000 seeds 50c;  $\frac{1}{64}$  Oz. \$1.00;  $\frac{1}{32}$  Oz. \$1.75;  $\frac{1}{8}$  Oz. \$5.50;  $\frac{1}{4}$  Oz. \$10.00.

W3803—Florists Supreme Strain. Large ruffled flowers of the California Giant type in a new array of colors, including the beautiful salmon and pink shades found in no other strain of Giant Petunias. This makes them unusually good for florists. 500 seeds \$1.00; 1000 seeds \$1.75;  $\frac{1}{64}$  Oz. \$3.75.

## Large Flowered Waved and Fringed Petunias

From all the different fringed and waved Petunias we grew on our farm last year, we finally selected these five as being the best.

	500 seeds	1000 seeds	$\frac{1}{4}$ Oz.
W3812—Martha Washington. A very dwarf compact plant covered with fringed blush-pink flowers veined wine-red.	\$ .35	\$ .70	\$1.25
W3813—Theodosia. We know we have the best strain of this popular bright pink with yellow center. Large and well fringed.	.60	1.00	2.00
W3816—Harris' Purple Prince. The largest flowered, deep, velvety, violet-blue. Large open throats and waved petals. Very free flowering. Our own growing.	.60	1.00	2.00
W3807—Dainty Lady. Dwarf plants with fringed creamy yellow flowers in abundance. Plants sell well from flats or pots.	1.00	1.75	3.75
W3817—The Art. The brightest colored strain of fringed Petunias we have ever seen. The flowers are thoroughly fringed and all in bright pink and red blotched white. Your customers will like them in their gardens.	.60	1.00	2.00

"The Swiss Giant Pansies from you were all very fine stock and we were told many times during the season that our Pansies were the finest we had ever put on sale. Our bed of Swiss Giant Blue made the biggest hit of all."

July 24, 1938 Mary M. Trost, Indianapolis, Ind.

W3805—Variety Mixture	.15	.35	.60 2.00

## Petunias That Are Different

W3836—Harris' Black Prince. We now have a new strain of this remarkable Petunia. The color is the darkest red it is possible to imagine, while the plants are uniformly compact growing. We found it to be one of the best selling Petunias in the spring plant trade.  $\frac{1}{4}$  Oz. 50c;  $\frac{1}{8}$  Oz. \$1.50;  $\frac{1}{4}$  Oz. \$5.50.

W3845—Balcony Blue—A tall growing, free-flowering, deep velvety purple-blue. A standard blue that always sells well. Lg. Pkt. 35c;  $\frac{1}{8}$  Oz. \$1.35;  $\frac{1}{4}$  Oz. \$5.00.

W3822—Salmon Supreme. The new true salmon bedding Petunia introduced last year. Gold Medal All-American winner for 1938. Seed of our own growing sure to grow.  $\frac{1}{4}$  Oz. 75c;  $\frac{1}{8}$  Oz. \$2.00.

W3774—Hollywood Star. The new star-shaped pink Petunia that won the Silver Medal in the 1939 All-American Selections. Retail Pkt. 25c.

"The flowers from the seeds I purchased of you last February have been very beautiful, especially the double and Ruffled Giant Petunias. Hardly a day passes but someone stops and wants to know where I get the seed, and I receive dozens of letters with the same inquiry."

Aug. 22, 1938 Milton A. Davis, North Woodstock, N. H.

New Double Petunia, Madonna

## Pansies

Pansy seed is usually sown from the middle of July to the middle of August and transplanted into beds in September. This method makes excellent sale plants in the spring. The practice of mulching with tomato vines after the ground has become frozen seems to work out very well. Pansies may also be sown in the greenhouse in January. These will make nice flat grown plants and bloom for your customers throughout the entire summer and fall. It is a very easy and profitable way to handle Pansies, and for customer satisfaction, should be encouraged.

Each year we sow on our farm seed from all the leading Pansy seed growers. In this way we know we are offering you the best money can buy.

### New Swiss Giants

- W3705—Magnificent Mixture. No description can do justice to this new strain of Pansies. The enormous blooms measure three inches or more in diameter and the colors are unusual. Lg. Pkt. 40c;  $\frac{1}{8}$  Oz. 80c;  $\frac{1}{4}$  Oz. \$1.50; Oz. \$4.50.
- W3704—Dwarf Swiss, Choice Mixture (New). More dwarf compact plants with the same immense flowers as the Magnificent Mixture. Lg. Pkt. 50c;  $\frac{1}{8}$  Oz. 95c;  $\frac{1}{4}$  Oz. \$1.75; Oz. \$5.00.
- W3738—New Blue Swiss. A solid blue with darker blue blotch. Lg. Pkt. 50c;  $\frac{1}{8}$  Oz. \$1.00;  $\frac{1}{4}$  Oz. \$1.75; Oz. \$6.00.
- W3739—New Red Swiss. Same type as the blue but a mahogany red color. Lg. Pkt. 50c;  $\frac{1}{8}$  Oz. \$1.00;  $\frac{1}{4}$  Oz. \$1.75; Oz. \$6.00.
- W3736—New Yellow Swiss. Another of the type but a yellow color with black blotches. Lg. Pkt. 50c;  $\frac{1}{8}$  Oz. \$1.00;  $\frac{1}{4}$  Oz. \$1.75; Oz. \$6.00.
- W3737—Coronation Gold. A new clear yellow Swiss Pansy. Lg. Pkt. 60c;  $\frac{1}{8}$  Oz. \$2.50;  $\frac{1}{4}$  Oz. \$4.50.

### Maple Leaf Giants

- W3703—Mixed Colors. A new variety with the largest flowers of them all. Lg. Pkt. 60c;  $\frac{1}{8}$  Oz. \$1.25;  $\frac{1}{4}$  Oz. \$2.25; Oz. \$7.50.

### Harris' Special Mixture

- W3700—We make a special point of this medium priced early flowering mixture. The flowers are large, with bright colors predominating. Lg. Pkt. 35c;  $\frac{1}{8}$  Oz. 50c;  $\frac{1}{4}$  Oz. 85c; Oz. \$3.00.

### Giant Trimardeau Pansies

- W3701—Mixed Colors. A high grade mixture of choicest colors of large-flowering Pansies. Lg. Pkt. 15c;  $\frac{1}{4}$  Oz. 30c; Oz. \$1.00;  $\frac{1}{4}$  Lb. \$3.50.

### Giant Ruffled Pansies

- W3702—The flowers of this mixture have fluted or ruffled petals which add much to the beauty of the wonderfully rich colors. Lg. Pkt. 35c;  $\frac{1}{8}$  Oz. 50c;  $\frac{1}{4}$  Oz. 85c; Oz. \$3.00.

## DOUBLE PETUNIAS

We are now pleased to offer you an American strain of Double Petunias, which, in our opinion are superior to the Japanese All-Double varieties. They produce 90 to 95% double flowers of greater size and fewer small-flowered doubles. In the case of the mixture, the colors are of infinite more value than those found in any other mixture of Double Petunias.

Double Petunias make excellent 4 to 5 inch pot-plants for Easter and Mothers' Day if the seed is planted in the early winter. They always sell well, either in flats or pots, for spring bedding plants.

Note: When pricking off seedlings, be sure to throw away the earliest and largest seedlings. The slowest and smallest seedlings are all double.

	500 seeds	1000 seeds	$\frac{1}{4}$ Oz.	$\frac{1}{2}$ Oz.

**Ruffled Sweet Peas**

W7600—Mixed Colors. A new type with large wavy petals and including a wide range of beautiful colors. Oz. 15c; ¼ Lb. 45c; Lb. \$1.50.

**SNAPDRAGONS**

Snapdragons are one of the florists' most useful flowers, both for a cut-flower and spring plant sales. They can be grown for cutting either outdoors, in a cloth house, or in the greenhouse.

For outdoors and cloth house, use the Tall Giant Flowered. Use the Half-Tall for greenhouse growing.

For plant sales, the Tall Giant Flowered is by far the most popular.

Our Snapdragons have all been chosen from the newest introductions and only the most popular colors are offered.

**Tall Giant Flowered Snapdragons  
(Rust-Resistant)**

For every use and from every point of view these are the finest Tall Snapdragons we can find. They are American grown, and fresh seed of high germination. The flowers are large and well placed on stems growing 2 to 2½ feet high. For plant trade, the seed is usually started in early February.

W5051—Pure White.....	} Lg. Pkt. ⅛ Oz. ¼ Oz. Oz.	\$ .35	\$ .50	\$ .90	\$ 3.00
W5052—Autumn Glow. Beautiful terra-cotta pink.....					
W5053—Bright Rose.....

W5055—Crimson. Deep red with dark foliage.....					
W5056—Orange Shades.....					
W5057—Canary Yellow.....					
W5050—Variety Mixture. Our own special mixture, using equal amounts of the seven colors. An exceptional mixture for plant trade. Lg. Pkt. 25c; ⅛ Oz. 40c; ¼ Oz. 75c; Oz. \$2.50.					

**New Half-Tall Snapdragons**

Although these varieties grow only 18 to 24 inches tall, they are preferred by many for outdoor summer bedding. They make a more compact plant and flower more freely, with good stems for cutting. Some cut-flower growers prefer them for outdoors and under cloth houses. We are offering not only the newest kinds, but the most free-flowering varieties.

W5101—Celestial. A new bright, clear silvery pink. Very large flowers closely set on the stem. A 1938 All-American winner. Lg. Pkt. 35c; ⅛ Oz. \$1.25; ¼ Oz. \$2.00.
W5103—Psyche. An unusual but attractive new color. Creamy white with carmine markings. A very profuse and continuous bloomer. Lg. Pkt. 35c; ⅛ Oz. \$1.25; ¼ Oz. \$2.00.
W5106—Golden Monarch. The best clear bright yellow. Lg. Pkt. 25c; ⅛ oz. 50c; ¼ Oz. 90c.
W5107—Royal Rose. A brilliant deep rose of exceptional beauty. Proving to be a favorite for both florist and home gardener. Large flowers continuously all summer. Lg. Pkt. 35c; ⅛ Oz. \$1.25; ¼ Oz. \$2.00.
W5108—St. George. A most pleasing shade of rosy orange, and a first choice with everyone. Blooms freely with large thickly set spikes. Lg. Pkt. 35c; ⅛ Oz. \$1.25; ¼ Oz. \$2.00.
W5109—Guinea Gold. A 1939 All-American winner. An attractive combination of gold and rose. Retail Pkt. only, 25c.
W5115—New-Color Mixture. Here is something special in Snapdragon mixtures. It is a mixture we make by using the light and unusual colors. Might be called a "Pastel Mixture." It is only the yellow, pink, orange, and rose shades with their variations, and will be most pleasing in the garden. Good for plant trade. Lg. Pkt. 35c; ⅛ Oz. 90c; ¼ Oz. \$1.50; Oz. \$4.50.

**Sunflowers**

W6195—New Double, Yellow.....	} ½ Oz. Oz. ¼ Lb.	\$ .25	\$ .40	\$ 1.20
W6190—Miniature Varieties Mixed				

**SALVIA**

With the florist, the name of Harris has become synonymous with superior quality and high germinating Salvia seed. Our special strain of Bonfire Salvia which we introduced last year has met with instant popularity. The spikes are larger, longer, and the florets placed more closely together. The growth is as uniform as though it had been sheared. The color is of a brighter shade than any other variety.

The quality of our regular strain of Splendens Salvia is not to be overlooked where a cheaper variety is demanded. You will find the germination high, but not as perfected in the other qualities as our Special Bonfire. Yet we find it is better than ordinary Splendens Salvia in earliness and growth.

If you want an extra early blooming variety to flower in pots in the spring we strongly recommend our Harbinger. This is a low-growing, free-flowering variety with high germinating seed.

W4603—Farinacea, Blue . . . . .	.35	1.15	3.75	...

Showing the fullness of the spikes of Harris' New Bonfire Salvia

**Zinnias**

Zinnias are very rapidly becoming a more and more popular florists' flower. They thrive in hot weather, growing so easily from seed sown outdoors about June 1st. The "Cut-and-Come Again," "Fantasy" and "Pompon" Zinnias are even better cut-flowers if grown in a cloth house. The flowers are larger and the stems longer.

Zinnias for May and June cutting may be grown in a warm greenhouse by sowing in February and March. Seed sown in August will make a late fall cutting in the greenhouse.

The most extensive use for Zinnias is in growing plants in "flats" for spring sales. Sow seed in early April. The Giant Flowered are the most popular and there is an increasing demand for separate colors. Pompon Zinnias are next in popularity.

*REMEMBER—When sowing Zinnia seed wait until the soil is warm. The seed will surely decay in cold wet soil.*

**Giant Flowered Varieties**

W8149—Brightness. Bright pink . . . . .	Lg. Pkt.	¼ Oz.	Oz.

# HARRIS' HARDY PERENNIALS—Continued

## Delphinium

Our extensive Delphinium plantings insure seed of the best possible strains of both our own growing and from other leading breeders. Only fresh seed of good germination is offered.

	Lg. Pkt.	¼ Oz.	Oz.
W2640—Improved Moreton Hybrids. This is an excellent strain of our own growing and is much better than the average.....		\$ .25	\$ .60 \$2.00
W2641—Monarch Strain. Seed of our own growing combining the best qualities of all the strains we have tried. Our customers say they can't be surpassed for this locality. .... ½ Oz. \$1.50	.85	2.75	10.00
W2644—Blackmore and Langdon Strain. Of the various English Delphiniums, Blackmore and Langdon's take the lead. Their own new crop seed. .... ½ Oz. \$1.50	.85	2.75	10.00
W2642—Double White. A double white grown from Hoodacres White..... ½ Oz. \$1.50	.85	2.75	10.00
W2649—Lyondel Hybrids. The best hand-pollinated seed from Dr. Leonian..... Pkt. \$1.00	2.50	...	...
W2665—Pacific Hybrids. A new strain which has already proven its worth on the Pacific Coast as the most valuable variety for the cut-flower grower. In California it surpasses all other Delphinium for size, type, and color. The flowers are mostly double and semi-double in unusually beautiful colors. It's worth trying..... ½ Oz. \$2.50	1.25	3.50	12.00
W2645—Bella Donna. Improved...	.35	1.50	5.00
W2646—Bella Mosum. Dark Blue.	.35	1.50	5.00

## INSECTICIDES, ETC.

All articles on these two pages are sent at purchaser's expense except where noted. All prices are subject to change without notice. Write for special prices in large quantities.

**ARSENATE OF LEAD.** Standard poison to use against worms and insects that eat leaves of plants, fruits, etc.  
Powder:  $\frac{1}{2}$  lb. 25c; 1 lb. package 45c; transportation paid. Not paid: 4 lb. bag \$1.00; 6 bags (24 lbs.) or more at 18c per lb.

**"BLACK LEAF 40."** Standard nicotine sulphate insecticide. Highly concentrated. Economical.  
1 oz. 35c; 5 oz. \$1.00; 1 lb. (bottle) \$2.25; 2 lb. (tin) \$3.25 transportation paid. Not paid: 5 lbs. \$5.85; 10 lbs. \$10.60 each. Prices subject to change. Write for prices on larger sizes.

**BORDEAUX MIXTURE.** Standard fungicide for spraying plants and trees.  
 $\frac{1}{2}$  lb. 25c; 1 lb. 40c; transportation paid. Not paid: 4 lb. bag 95c; 6 bags (24 lbs.) at 16c per lb. Write for prices on larger quantities.

**CALOMEL. (Fine Powder).** Used successfully to combat cabbage maggots. See your County Agent.  
1 lb. \$2.10; 5 lbs. or more at \$1.95 per lb. transportation paid. Prices subject to change.

**CORROSIVE SUBLIMATE. (Bichloride of Mercury).** This powerful disinfectant is used to treat potatoes and in the control of cabbage maggots.  
 $\frac{1}{4}$  lb. 50c; 1 lb. \$1.65; 5 lbs. or more at \$1.60 per lb. transportation paid.

**NEW EVERGREEN.** One of the most effective non-poisonous insecticides. Contains soap spreader.  
1 oz. 35c; 6 oz. \$1.00; 16 oz. \$2.15 transportation paid. Not paid: 1 gal. \$12.20.

**FORMALDEHYDE, (40 per cent).** A valuable disinfectant for destroying germs that cause diseases in plants. Directions on can.  
1 lb. cans 40c; 6 cans \$2.15 postpaid; also 100 lb. Carboys (about 12 gal.) and 450 lb. barrels (50 gal.) Write for special price.

**SEMESAN.** We have found this material most reliable to prevent damping off of seedlings. Used either as liquid for treating soil or dust disinfectant for seeds.  
 $\frac{1}{8}$  oz. 10c; 2 oz. 35c; 1 lb. \$2.25 transportation paid. Not paid: 5 lbs. \$9.90; 25 lbs. \$45.50.

**SEMESAN Bel. For seed potatoes.** One pound New Improved Semesan Bel will treat 50 to 60 bu. of cut potatoes. For control of Rhizoctonia and seed-born Scab.  
4 oz. 45c; 1 lb. \$1.50 transportation paid. Not paid: 5 lbs. \$6.75; 25 lbs. \$31.00.

**SEMESAN Jr.** A cheap and effective dry dust disinfectant for both field or sweet corn. Prevents corn from rotting in the ground.  
2 oz. 15c; 4 oz. 30c; 1 lb. 75c transportation paid. Not paid: 5 lbs. \$3.25.

**CERESAN.** New Improved. Effective dust for control of covered smut on wheat, oats and barley.  $\frac{1}{2}$  oz. treats 1 bu. of seed.  
1 lb. 70c transportation paid. Not paid: 5 lbs. \$3.00.

## PEAT MOSS

Soil mixed with Peat Moss makes ideal material for seedlings and potted plants. It has good drainage and will not crust or bake after watering.

**HARRIS' PEAT MOSS** is a very superior brand finely granulated, and free from any foreign matter. It is put up in bales about 12 cu. ft. of highly compressed peat moss or enough to cover more than 250 square feet 1 inch deep.

Price: Single bale \$3.40; 3 bales or more at \$3.35 per bale. Purchaser pays transportation. Write for prices on larger quantities.

## Raffia—Better than String

Used for heavy bundles of plants, for tying plants to stakes, for budding and grafting and many other purposes. Very economical and costs less than string.  
Lb. 40c; 5 lbs. \$1.60 transportation paid. Write for prices on large quantities.

## Garden Line

Good strong hemp garden line. 50 feet 60c; 100 feet 90c; 200 feet \$1.40. Transportation paid.

## Protect Your Seed Corn From Crows

If you are troubled with crows and other birds pulling up your seed corn, treat it with **STANLEY'S CROW REPELLENT**. We use it on our own farm for corn, melons and cucumbers. Will not harm the seed or clog the planter.  
Half pt. can (enough for 1 bu.)... \$ .60  
Pint can (enough for 2 bu.)... 1.00  
Quart can (enough for 4 bu.)... 1.75  
Transportation paid.

**"NICO-FUME."** Powder Pressure-Fumigator (New). This most effective and economical fumigating material for greenhouses is now burned under pressure in special cans in which it is packed. Complete directions on label.  
 $\frac{1}{2}$  lb. cans 45c each; 6 for \$2.40; 12 for \$4.20; 1 lb. cans 75c each; 6 for \$3.75; 12 for \$7.00 transportation paid.

**PYROTE.** Unexcelled non-poison Pyrethrum-Rotene spray. No spreader needed.  
1 oz. 35c; 6 oz. \$1.00; pint \$2.00; quart \$3.50; transportation paid. Not paid: 1 gallon \$12.00; 5 gal. \$50.00.

**CUPROCIDE (Red Copper Oxide).** A very effective and cheap disinfectant for seed. Especially effective for spinach and beets.  
4 oz. 35c; 1 lb. can 90c transportation paid. Not paid: 5 lbs. \$4.00. Write for prices on larger quantities.

**CUPROCIDE 54. New Red Copper Oxide Spray.**  
3 lb. bag \$1.15 transportation paid. Not paid: 5 bags or more at 95c per bag.

**RED ARROW.** A highly concentrated Pyrethrum spray. Non-poisonous to human and animals.  
1 oz. 35c; 4 oz. \$1.00; pt. \$2.70; qt. \$4.80 transportation paid. Not paid: 1 gal. \$14.00 each; case of 6 1-gal. \$75.00.

**SNAROL.** Poison Bait for Cut worms, Sow bugs, Slugs, Snails, etc. Will not deteriorate from rain or sprinkling.  
 $1\frac{1}{2}$  lb. 35c transportation paid. Not paid: 4 lbs. 85c; 15 lbs. \$3.00; 50 lbs. \$8.00. Write for prices on larger quantities.

**SULROTE.** This new dust combines Sulphur and Rotenone in a most effective non-poisonous dust, for control of lice and worms on cauliflower, cabbage, etc., Mexican beetles, cucumber beetles and other pests.

1 lb. can 40c each transportation paid. 5 lb. bags \$1.25; 25 lbs. at 18c per lb.; purchaser pays transportation. Write for prices on larger quantities.

**TOBACCO DUST.** Fine Powder. Used extensively for dusting plants and for fumigating greenhouses. 5 pounds will fumigate a house 20 x 100 feet.  
2 lbs. 35c transportation paid. Not paid: 10 lbs. 50c; 100 lbs. \$4.00.

## Pot Labels and Garden Stakes

Keep a record of the kind and variety of seeds sown, dates, etc.

POT LABELS.	Plain		Painted	
	100	1000	100	1000
4 in. long.....	\$ .25	\$1.75	\$ .28	\$2.15
5 in. long.....	.25	1.95	.28	2.35

Transportation paid.

**GARDEN STAKES.** These are good, smooth, white wooden labels of best quality. 100 Plain \$1.25; 100 Painted \$1.40. Transportation paid. Not paid: 1000 plain \$7.00; 1000 Painted \$8.50. Weight 30 lbs. per 1000.

## Rubber Bands

Finest quality, new rubber amber bands. Used for bunching vegetables. Better than string.  
Sizes No. 8— $\frac{7}{8}$ "; No. 10— $1\frac{1}{4}$ "; No. 12— $1\frac{3}{4}$ "; No. 27— $1\frac{1}{2}$ "; No. 30—2"; No. 31— $2\frac{1}{2}$ "; No. 32—3".  
Please order by number.

1 lb. 70c transportation paid. Not paid: 10 lbs. or more at 60c per lb. Lowest prices quoted on large lots.

## Use "Fertile Pots" for better, earlier crops!

Seedlings set in these pots can be grown and then set in the field pot and all without checking the plant, even in very dry weather. These pots are made with just the right amount of fertilizer for the best plant growth.

Large growers find these pots not only save time and labor but actually produce earlier fruit and better yields.

Especially valuable for Early Cabbage, Egg Plant, Peppers, Tomatoes, Melons, Squash, etc.

**PRICE: Fertile Pots are packed in cartons as follows:**

No. 1 (about 1½" dia.) per carton of 2000.....	\$14.00
No. 2 (about 2" dia.) per carton of 500.....	4.50
No. 3 (about 3" dia.) per carton of 335.....	4.00

We cannot sell less than single cartons of each size at above prices. All f. o. b. Coldwater, N. Y. Weight per carton about 40 lbs. For prices of small quantities see our Retail Catalogue.

## New "Open Hed" Sprayer

This new Brown Sprayer represents the first real improvement that has been made in hand sprayers in many years.

It combines many new features with the well known superiority of this Brown sprayer.

Electrically welded seams, double acting pump lock, opening 5 in. in diameter, Double grip rubber pump handle. New swivel nozzle.

Write for literature.

No. 4 B. Open Hed  
4 gal. Brass Tank \$11.75

No. 4 D. Open Hed  
4 gal. Galvanized \$ 6.75

Transportation paid in U. S. east of the Mississippi River and north of Tenn.

## PLANET JR. Wheel Hoes and Seeders

These are the best made and most complete line of wheelhoes and seeders, and are used by commercial growers everywhere. Prices quoted below are f. o. b. Coldwater, N. Y., Cambridge, Mass., or Philadelphia, Pa.

### WHEELHOES:

Planet Jr. Double Wheelhoe No. 12.....	\$11.50
Planet Jr. Double Wheelhoe No. 13.....	8.75
Planet Jr. Single Wheelhoe No. 17.....	7.75
Planet Jr. Single Wheelhoe No. 18.....	5.75

### SEEDERS:

Seeder No. 300. Rear wheel 11¼" diameter....	20.00
Seeder No. 300A. Rear wheel 9" diameter....	20.00

This is the most satisfactory seeder we have ever seen. Write for complete catalogue of Planet Jr. tools.

## Lang's Hand Weeder

This is one of the most useful tools for hand weeding made. A boy with one of these weeders can do twice as much work in a day as he could without it.

Price: 25c each; 3 for 65c; 6 for \$1.00 postpaid.

## Early Crops Get Highest Prices

In order to grow profitable vine crops, the grower must do everything possible to insure the greatest yield of early fruit at a minimum cost. The use of plant protectors or field forcers has proved a decided advantage in growing these crops.

We have tried a number of other plant protectors side by side with Hotkaps and Hotents in our melon fields but have found none which have equal ability to stand high winds and beating rains. Select the size best suited to your needs.

Germaco

## Hotkaps

New Method of  
Plant Protection

**Hotkaps** are simply scientifically constructed wax paper cones, which are placed over the plant or hill of seeds in the field. They act as miniature hot houses, enabling the grower to set out his plants or plant his seed as soon as the ground is warm, as they afford perfect protection from frost, wind and beating rains. They

protect the young plants from insects, such as the striped beetle which does so much damage. It also prevents the ground from baking around the plant. **This makes for earlier and better fruit.**

**PRICES:** 250 with special setter and tamper \$3.65 (weight 9 lbs.) 250 without setter and tamper \$3.25; 500 with setter and tamper \$5.50 (weight 17 lbs.) 500 without setter and tamper \$5.10; 1000 Hotkaps without setter and tamper \$10.15 (weight 26 lbs.) 5000—\$10.05 per 1000; 10,000 or more at \$9.95 per 1000. Purchaser pays transportation.

For full details and prices of Hotkaps in smaller quantities see our General Retail Catalogue.

Steel Hotkap Setter and Tamper—\$1.50 (weight 3 lbs.). **Not prepaid.**

Folder giving full description and direction for using Hotkaps will be sent to anyone interested on request. Please write.

**Hotents!** Made by the same people. Larger area and taller, special paper, wire reinforced. 10½ x 14½ x 8½ or 152½ sq. in. at base. Will stand up under adverse conditions. Some of our customers have found *Hotents* especially valuable for growing melons and use many thousands each year.

**PRICE:** Carton, 500 (weight 34 lbs.)—\$7.00; 1000—\$13.45; 5000 at \$12.95 per thousand. Setter \$1.95 each (weight 4 lbs.). Purchaser pays transportation. We cannot sell less than 500. Send for descriptive circular.

**Super Hotents.** The largest practical field forcer we know. Specially made paper reinforced with wire. Size 14" x 18" by 12" high.

**PRICE:** 500 (weight 60 lbs.) \$10.25; 1000, \$19.35; 5000 at \$19.00 per 1000. Setter \$2.75 each. Purchaser pays transportation.

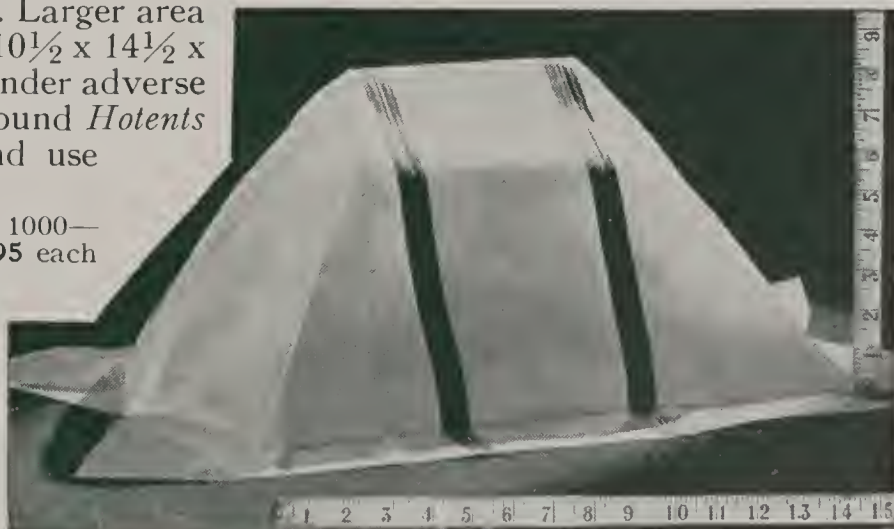

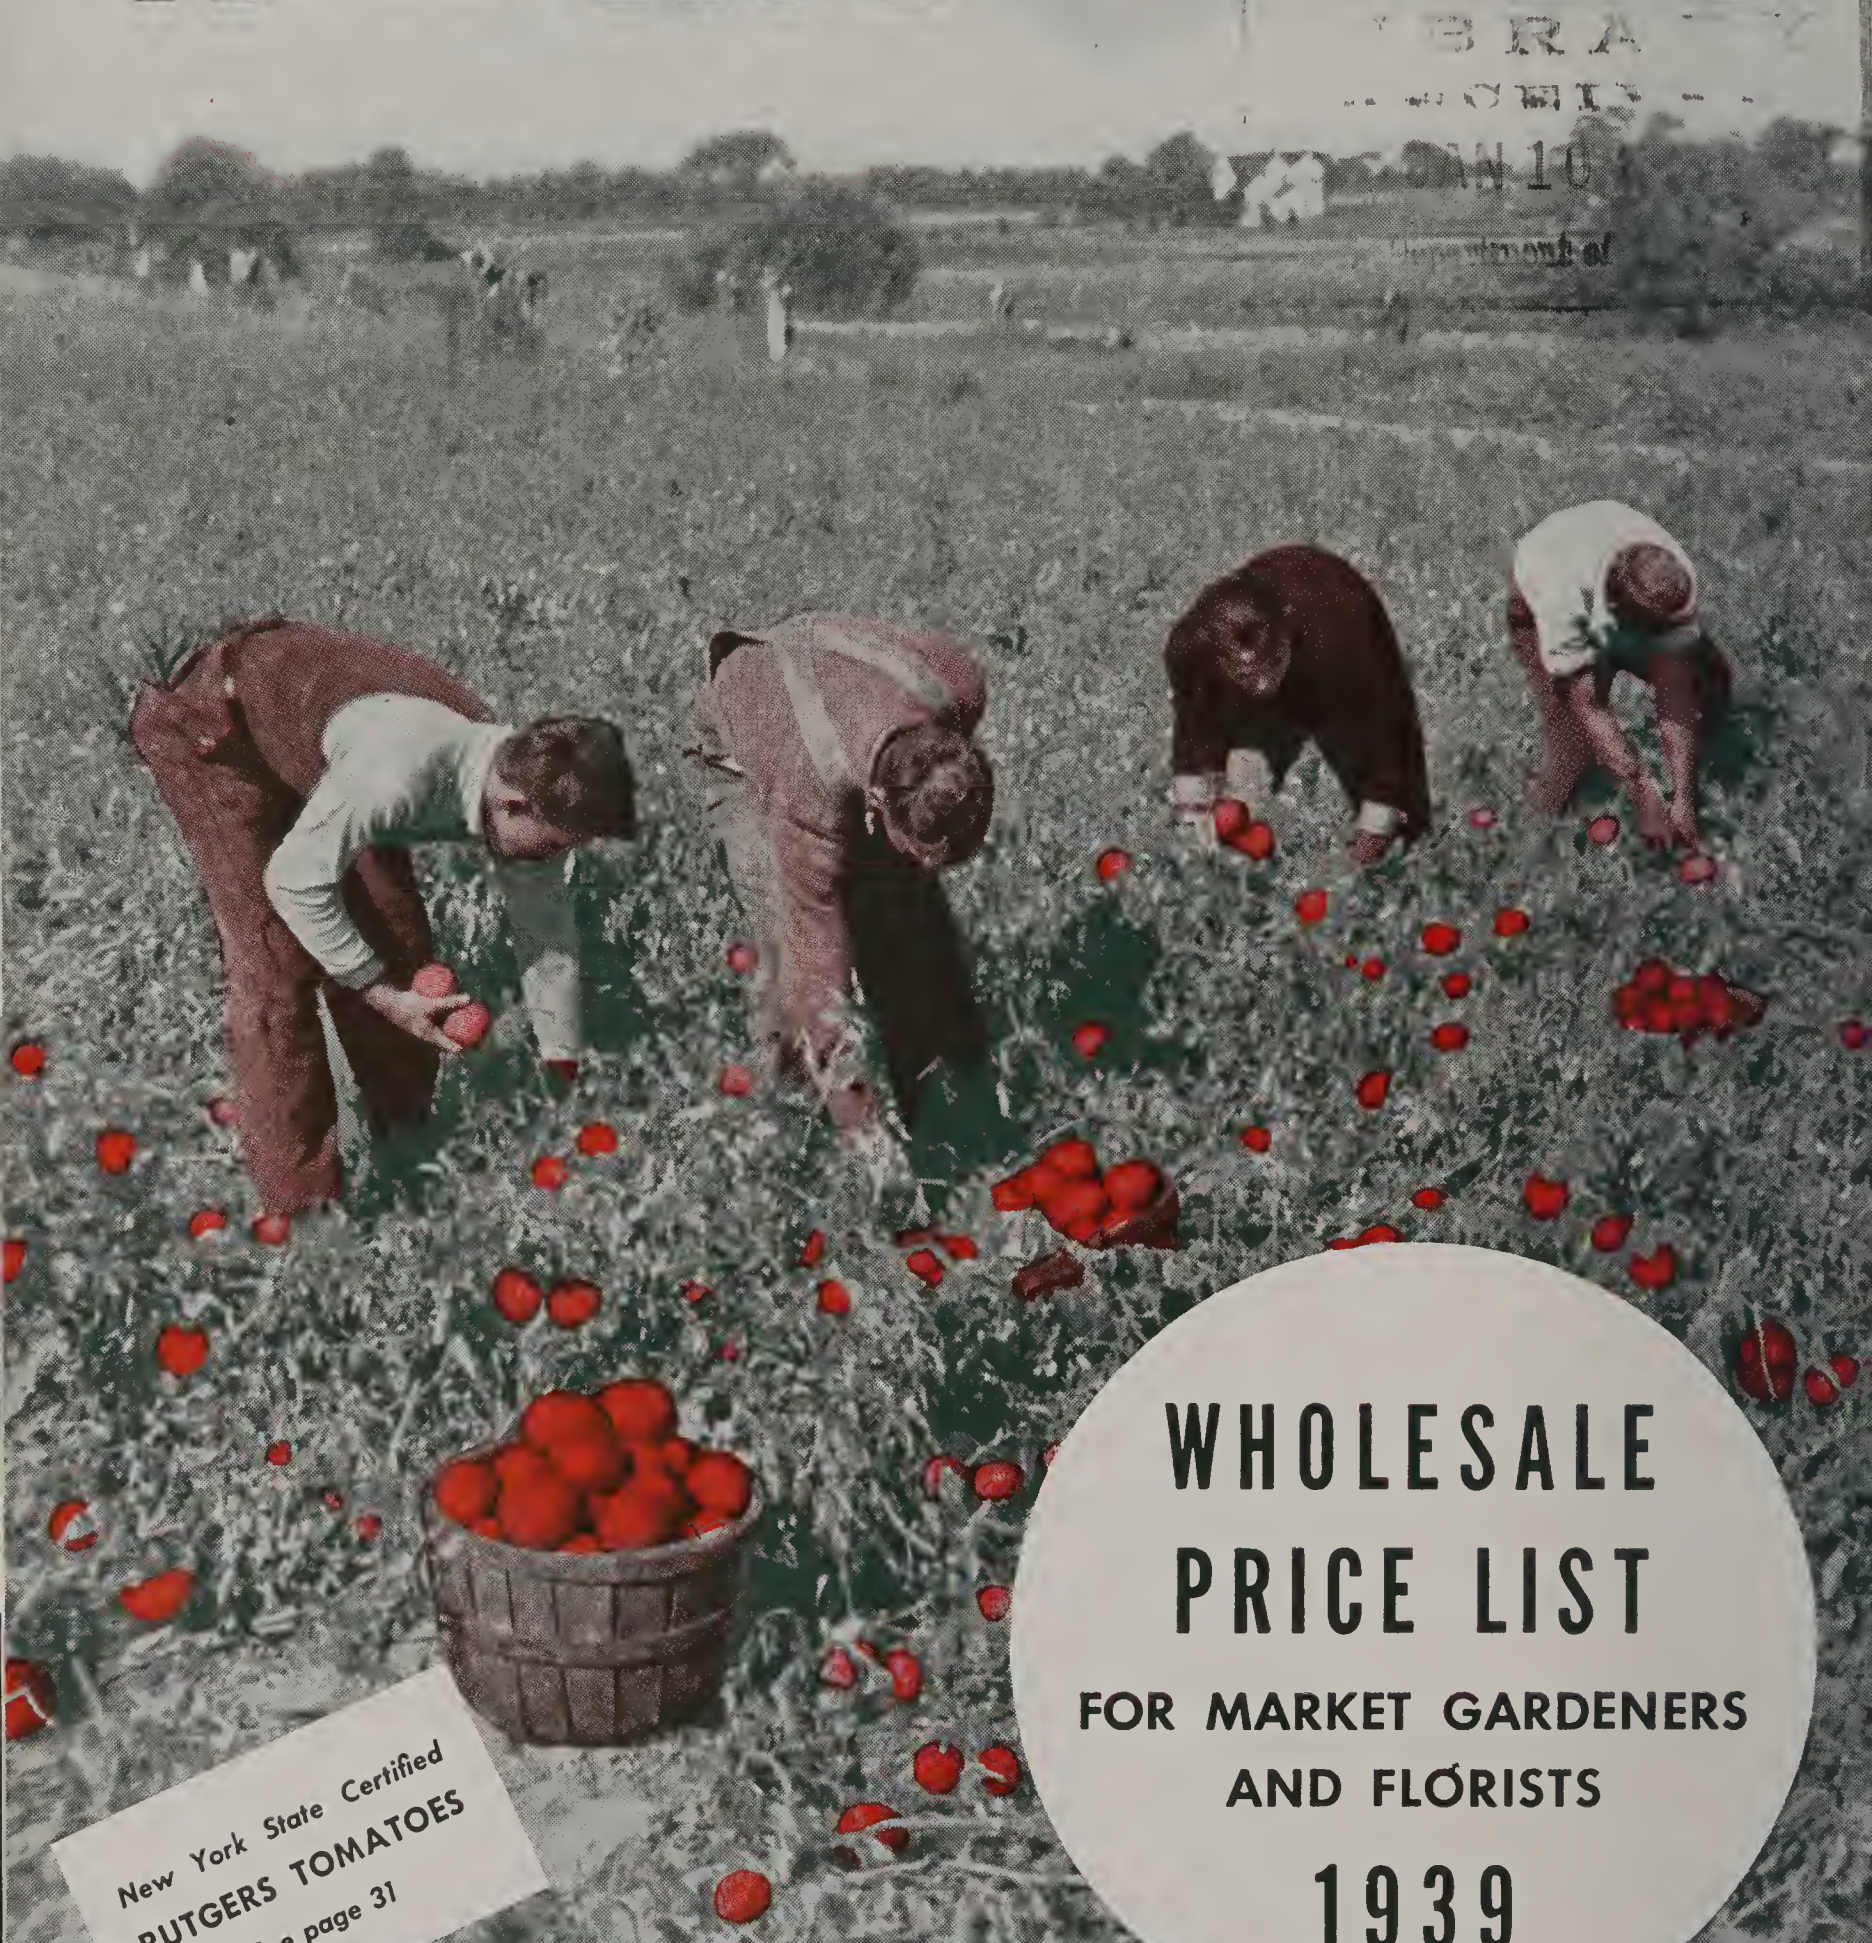

Photo shows size and shape of the Hotent.
